Everyone 18 and older is encouraged to complete an advance directive, also called a living will, and designate a health care surrogate to speak on his or her behalf if the need arises. Resources will be available to help you plan for unforeseen medical circumstances and care near the end of life. Questions that will be answered during these events include:

• When to begin thinking about a living will
• Which forms to complete and where to send them
• How to be sure that your wishes will be properly executed.

For more information, visit [http://www.nhdd.org](http://www.nhdd.org) and UFHealth.org/advance-directives.
