The College of Medicine Raising Hope at Work employee campaign is an opportunity for faculty to come together and make a defining impact on the future of medicine. Support from within not only provides an integral source of funding, but it also sends a powerful message to our community - we stand behind an organization worth investing in. Faculty can contribute to one of two initiatives vital to our growth as a premier institution:

- the George T. Harrell, M.D., Medical Education Building
- the UF Health Heart & Vascular Hospital and UF Health Neuromedicine Hospital

To learn more about this year’s campaign and to make your pledge today, visit www.raisinghopeatwork.org.

SPOTLIGHT ON EDUCATION!

FMA Annual Meeting, July 31-August 2, 2015

Several UF College of Medicine students and faculty were recognized with awards and board appointments during the 2015 Annual Meeting of the Florida Medical Association (FMA).

Congratulations to UF medical student Douglas Bennion who received the 1st place award for Best Research Poster during the David A. Paulus, M.D., Poster Symposium, for his project and poster entitled "Feast then Famine: How Fasting May Make Our Cells More Resistant to Stress". This was the 10th anniversary of the Poster Symposium at the FMA annual meeting, which included a tribute to its namesake, UF's Dr. David Paulus, presented during the Poster Symposium awards ceremony. See http://www.celebratemedicine.com/events/david-a-paulus-m-d-poster-symposium-awards-ceremony/

Dr. David Winchester, Assistant Professor of Medicine/Cardiology, received the 2015 Gerold L. Schiebler, M.D. Advocate for Medical Students Award, which honors the outstanding service and advocacy of an FMA physician on behalf of the FMA Medical Student Section. The award was presented by UF medical student Jacob Burns, who is an MD/MBA dual degree candidate at UF. Dr. Winchester was also appointed to the FMA Council on Legislation. Other FMA committee appointments include Dr. Charles Riggs, Professor of Medicine/Hematology and Oncology, and Dr. Chris Cogle, Associate Professor of Medicine/Hematology and Oncology, who were appointed to the FMA Committee on Medical Education, Science, and Public Health.
Appointments to the FMA Board of Governors included Dr. Charles Riggs, who was appointed in the District H seat, Dr. Ashley Norse, Associate Professor of Emergency Medicine/Jacksonville, who was appointed in the District B seat, UF medical student Jacob Burns, who was appointed to the Medical Student Section board seat, and UF COM Dean Michael Good representing the Council of Florida Medical School Deans.

The FMA House of Delegates debated many aspects of contemporary health care issues. More information on these can be found at the FMA website and in subsequent new releases. Through an institutional membership, all UF College of Medicine faculty are FMA members. Visit the FMA website at http://www.flmedical.org/Member_Benefits.aspx to learn more.

Instructional Design Workshop
There are so many technologies available when constructing an online course that creating a new course or program can seem overwhelming. The staff of the Center for Instructional Technology and Training (CITT) recognized the need for a workshop that would present all course design technology options available at UF, whether an instructor is looking to develop an online, blended or hybrid course, flipped classroom, or MOOC. The result is an online workshop for instructors interested in learning the pedagogical building blocks of online course design and management. (http://citt.ufl.edu/citt-services/citt-instructional-design-workshop). Instructors complete the five-seven hour online workshop at their own pace.

The Instructional Design Workshop provides participants with a student-perspective to online learning, while presenting data-supported theory and methods through lectures, readings, models, and links to additional state-of-the-art resources and information. The CITT’s Instructional Design Workshop is not part of the Faculty Institute required for instructors teaching in UF Online. Rather, this overview of online learning provides excellent preparation for course development and design. Topics covered in this workshop include:

* The instructional design process
* Best practices for teaching online
* Lecture presentations
* Assignments and assessments
* Effective discussion boards
* Groups

Click here to register for this workshop. Anyone with questions about the workshop or CITT instructional design services may email Stephanie McClelland.

WELCOME NEW FACULTY!

Sean Kiley, M.D. Assistant Professor, Department of Anesthesiology.

Jack Hagan, M.D. Assistant Professor, Department of Anesthesiology.

John Berglund, Ph.D., Professor. Department of Biochemistry.

Giridhar Kaliki Venkata, M.D. Assistant Professor, Congenital Heart Center.

Brandon Brown, M.D. Assistant Professor, Department of Dermatology.

Tania Gonzalez-Santiago, M.D. Assistant Professor, Department of Dermatology.

Hannah Eason-Bates, M.D. Assistant Professor, Department of Emergency Medicine.

Desmond Fitzpatrick, M.D. Assistant Professor, Department of Emergency Medicine.

Caroline Srihari, M.D. Assistant Professor, Department of Emergency Medicine.

Rupam Ruchi, M.D. Assistant Professor, Department of Medicine, Division of Nephrology.

Kiran Lukose, M.D. Assistant Professor, Department of Medicine, Division of Hospital Medicine.

Blair Reece, M.D. Assistant Professor, Department of Medicine, Division of Hospital Medicine.

Martina Murphy, M.D. Assistant Professor, Department of Medicine, Division of Hospital Medicine.
Eric Wang, Ph.D. Assistant Professor, Department of Molecular Genetics & Microbiology.

Steven DeKosky, M.D. Research Professor, Department of Neurology

Elakkat Gireesh, M.D. Assistant Professor, Department of Neurology.

Michael Maraist, M.D. Assistant Professor, Department of Neurology.

Ashley Ghiaeddin, M.D. Assistant Professor, Department of Neurosurgery.

Ethan Stoll, D.O. Assistant Professor, Department of Pathology.

Ashwini Esnakula, M.D. Assistant Professor, Department of Pathology.

Kristianna Fredenburg, M.D., Ph.D. Assistant Professor, Department of Pathology.

John Sladky, M.D. Clinical Professor, Pediatric Nephrology and Rheumatology, Department of Pediatrics.

James Wynn, M.D. Associate Professor, Department of Pediatrics.

Kathryn Wheeler, M.D. Assistant Professor, Department of Pediatrics.

Michael Sylvia, M.D. Assistant Professor, Department of Pediatrics.

Gonzalo Torres, Ph.D. Associate Professor, Department of Pharmacology.

Jaya Koll, MD. Lecturer, Department of Physiology.

Anyalie Hancock-Smith, Ph.D. Assistant Professor, Department of Psychiatry.

Timothy Boyett, M.D. Assistant Professor, Department of Radiology.

Erin Cooke, M.D. Assistant Professor, Department of Radiology.

Erik Middlebrooks, M.D. Assistant Professor, Department of Radiology.

Nupur Verma, M.D. Assistant Professor, Department of Radiology.

Michael Lazarowicz, M.D. Assistant Professor, Department of Radiology.

Mark Johnson, M.D. Clinical Professor, Department of Surgery.

Teng-Chun Lee, M.D. Assistant Professor, Department of Surgery.

Michael Lazarowicz, M.D. Assistant Professor, Department of Radiology.

NEW GRANTS AWARDED!

Laura P.W. Ranum, PhD. Professor, Department of Molecular Genetics & Microbiology has been awarded a renewal of a National Institutes of Health research project entitled, "Molecular genetic Characterization of SCA8". The NIH has recognized Dr. Ranum's long-term research competence
Edgardo Rodriguez, PhD. Assistant Professor in the Department of Pharmacology & Therapeutics has been awarded a National Institutes of Health new R21 grant entitled, "Somatic Inactivation of the SNCA Locus: A New Approach to the Understanding and Treatment of Parkinson's Disease."

Sara Jo Nixon, PhD. Professor, Department of Psychiatry has been awarded a National Institutes of Health new R21 grant entitled, "Effects of GTS-21 on Smoking Behavior and Neurocognitive Function."

Gary P. Wang, MD, PhD. Assistant Professor, Department of Medicine has been awarded a National Institutes of Health new R21 grant entitled, "Regulation of Tryptophan Metabolism and Anxiety by Gut Microbiota."

Alexander M. Ishov, PhD. Associate Professor, Department of Anatomy & Cell Biology has been awarded a National Institutes of Health new R21 grant entitled, "Function of Histone Chaperones in HSV-1 Chromatin Structure During Latency, Establishing Maintenance and Reactivation."

We are pleased to provide to acknowledge the service of the following faculty on review panels National Institutes of Health. This prestigious assignment recognizes them as an esteemed scientist and expert in their field.

Special Emphasis Panels:

- Thomas P. Yang, PhD. Professor, Department of Biochemistry & Molecular Biology.
- Gary P. Wang, MD, PhD. Assistant Professor, Department of Medicine.
- Peter W. Stacpoole, MD, PhD. Professor, Department of Medicine.
Hertbert P. Schweizer, PhD. Professor, Department of Molecular Genetics & Microbiology.

Brent Reynolds, PhD. Associate Professor, Department of Neurosurgery.

Duane Mitchell MD, PhD. Associate Professor, Department of Neurosurgery.

Biagio A. Pietra, MD. Chief and Professor, Department of Pediatrics.

Drake Morgan, PhD. Assistant Professor, Department of Psychiatry.

Jeffrey Martens, PhD. Professor and Chair, Department of Pharmacology & Therapeutics.

Mary Jo Koroly, PhD. Associate Professor, Department of Biochemistry & Molecular Biology.

Arthur Edison, PhD. Professor, Department of Biochemistry & Molecular Biology.

NIH Study Sections

- Glenn A. Walter, PhD. Associate Professor, Department of Physiology and Functional Genomics. "Skeletal muscle and Exercise Physiology" study section.
- Silvia Tornaletti, PhD. Assistant Professor, Department of Medicine. "Cancer Etiology" study section.
- H. Lee Sweeney, PhD. Program Director & Eminent Scholar, Department of Pharmacology & Therapeutics. "Skeletal Muscle and Exercise Physiology" study section.
- Maurice Swanson, PhD. Professor, Department of Molecular Genetics & Microbiology. "Skeletal Muscle and Exercise Physiology" study section.
- Shinichi Someya, PhD. Assistant Professor, Department of Aging & Geriatric Research. "Auditory System" study section.
- Salvatore Scali, MD. Assistant Professor, Department of Surgery. "Bioengineering, Technology and Surgical Sciences" study section.
- Diego E. Rincon-Limas, PhD. Assistant Professor, Department of Neurology. "Synapses, Cytoskeleton and Trafficking" study section.
- Duane Mitchell MD, PhD. Associate Professor, Department of Neurosurgery. "Cancer Immunopathology and Immunotherapy" study section.
- Laura P. W. Ranum, PhD. Director and Professor, Department of Molecular Genetics & Microbiology. "Chronic Dysfunction and Integrative Neurodegeneration" study section.
- David A. Ostrov, PhD. Associate Professor, Department of Pathology, Immunology & Laboratory Medicine. "Cellular and Molecular Immunology-B" study section.
- Qiuhong Li, PhD. Associate Professor, Department of Ophthalmology. "Gene and Drug Delivery Systems" study section.
- Sarah Glover, DO. Associate Professor, Department of Medicine. "Small Business: Digestive Sciences" study section.
- Benoit Giasson, PhD. Associate Professor, Department of Neuroscience. "Cellular and Molecular Biology of Neurodegeneration" study section.
- Kenneth Cusi, MD. Chief and Professor, Department of Medicine. "Clinical and Integrative Diabetes and Obesity" study section.
- Shannon Boye, PhD. Assistant Professor, Department of Ophthalmology. "Gene and Drug Delivery Systems" study section.
- Dorina Avram, PhD. Professor, Department of Medicine. "Cellular and Molecular Immunology" study section.
- John Ash, PhD. Associate Professor, Department of Ophthalmology. "Biology of the Visual System" study section.
Clinical Data for Research

The IDR Studio is a showcase for retrospective clinical data available to the UF research community. At the Studio, we will demonstrate i2b2 – the free online cohort discovery tool available at UF. And we will describe what data are accessible for research and how these data are curated to ensure reliability, consistency and security.

Registration is open to all UF researchers, please distribute among members of your team.

There is no charge for the studio, RSVP to Julie Fesenmaier – juliefes@ufl.edu
Gainesville: IDR Studio – Friday, September 18, 2015
Time: 11:30 - 1:30 (lunch provided) Location: 3161 CTRB

Join us in Jacksonville October 2, 2015
Explore the Power of the IDR Toolbox

The IDR Studio features the data available in the IDR; provides feedback on research design; advises on protocol development; and, facilitates scientific exchange and collaboration among investigators.

Bring your research ideas!
During the Studio, time is set aside to work on individual research projects and small group consulting. Faculty/staff from the IDR and Biostatistics Epidemiology and Research Design (BERD) are available to advise on data availability, research and study protocol.

More than 250 million facts in i2b2 including:

- Assessment Scores
- Biorepository specimen availability
- Consent to research re-contact
- Diagnoses (ICD-9-CM, problem list)
- Inpatient and outpatient encounter characteristics
- Laboratory results
- Medication
- Pain scores
- Patient demographics
- Patient Reported Outcomes
- Personalized medicine program data
- Procedures (ICD-9-CM, CPT4)
- Visit locations
- Visit types
Faculty Enhancement Opportunity (FEO) Grants

The University of Florida Provost, Dr. Joseph Glover recently announced the next Faculty Enhancement Opportunity (FEO) grant cycle. The FEO grants are a wonderful opportunity for faculty to receive support for numerous different types of faculty enhancement projects or training. If you are interested in applying, please read the information at http://www.aa.ufl.edu/FEO. Please make sure you meet the eligibility requirements before applying (3 years as full time faculty or equivalent, email me if you are unclear and all part time faculty should email). The application form is available at the FEO web page above.

For COM faculty, an electronic letter of intent is required prior to submission. Your application must be submitted for college-level review by September 16, 2015 @5:00PM. This is NOT the October 2, 2015 deadline listed on the application form. That is the deadline for the COM-FEO review committee to send your reviewed and supported application to campus.

Send your "e" Letters of Intent (eLOI) to me by September 1, 2015 (earlier is much better). A simple one line email works great and will allow us to keep all applicants up to date with any changes in the process.

Please send me any questions or even ideas. Do take advantage of this unique funding opportunity that is supported by the COM faculty council, Dean Good, Dean Wilson, Provost Glover and President Fuchs.

David

David M. Quillen, MD
Chair, COM-FEO Review Committee
News&Notes readership survey

We want your input to improve News&Notes, the UF Health Shands internal newsletter for faculty, staff, residents and volunteers who provide care and service in our facilities.

Visit http://bit.ly/1NLV0Gj to access the survey, which only takes a few minutes to complete. This survey is open to the public, so please share with your staff, colleagues or anyone interested in News&Notes.

For more information about News&Notes and to view archives, visit http://news-notes.ufhealth.org/.

Upcoming Networking Lunch
When: Wednesday, September 2nd, 11:30 a.m. - 1:00 p.m.
Where: Burrito Brothers. No need to RSVP, just come on in!

**Please save the dates for our fall networking lunches: September 2nd and November 4th at Burrito Brothers (1420 W. University Ave.), and October 1st and December 3rd at Piesanos (1250 W. University Ave.).**

---

Our Vision:
To connect professional women working in the University of Florida community in order to promote personal growth, career development and lifelong learning - and to have some fun!

Join us: To join or renew your AAW membership (our year started on June 1st), please visit aawufl.org. Dues are used to support scholarships for female doctoral students. During the academic year, we provide valuable and enjoyable programming, monthly networking luncheons, and fun social events!

Join the board: Want to be more involved? AAW welcomes new individuals to serve on the board. If you are interested in serving the membership, please contact Brandi Ormerod, AAW president.

Connect with us: AAW Facebook Page / AAW LinkedIn Group

"A Dose of Fashion"

Take a walk through history, fashion, and medicine at A Dose for Fashion. This unique event features historical anecdotes about people, medicine and UF and Shands illustrated by costumes of the era. Fashions courtesy of The Taylor Girls Fashion Show with High Tea courtesy of Ruffled Rose Tea Room. All proceeds benefit the Climb for Cancer Foundation for oncology programs at UF Health Shands.
Thursday, September 10, 2015
11:30 am to 1:00 pm
Gainesville Woman's Club
2809 West University Avenue

Table of 8 - $400 (Reserve a table and decorate it to compete for the Best Table Award. Download the Decorating Guidelines here.)

Individual tickets - $60

New wayfinding system on first floor of UF Health Shands Hospital

UF Health leaders have installed a new, innovative wayfinding system along the first floor halls of UF Health Shands Hospital (north campus).

Based on "metro maps" used in urban settings, our new wayfinding features "paths" and "stops." Color-coded directional paths indicate the routes through the building; and numerical stops mark the destinations.

The wayfinding system includes three directional kiosks located at the east and west entrances of UF Health Shands Hospital and the central UF Health Shands Hospital Atrium.

Visit blueprints.UFHealth.org and click "Maps and other handouts" under the "Resources" tab to download the new map. Please review it with your colleagues and students and get to know the location colors and numbers.
IN THE NEWS!

College of Medicine Promotion and Tenure Review Committees (2015-16)

- **Tenure Track Committee**

  **Professors**
  - Chair: William Friedman, MD, Neurosurgery
  - Vice Chair: Lucia Notterpek, PhD, Neuroscience
  - Dominick Angiolillo, MD, PhD, Cardiology - Jacksonville
  - Roger Berthoff, PhD, Pathology - Jacksonville
  - Sylvain Doré, PhD, Anesthesiology
  - Phyllis Hendry, MD, Emergency Medicine - Jacksonville
  - Mark Segal, MD, PhD, Medicine, Nephrology
  - Colin Sumners, PhD, Physiology, Educational Rep

  **Associate Professors**
  - Rebecca Beyth, MD, MSc, General Internal Medicine
  - Mildred Maldonado-Molina, PhD, Health Outcomes and Policy
  - Jennifer Miller, MD, MS, Pediatrics, Endocrinology
  - Herbert Ward, MD, Psychiatry

- **Mission Track Committee**

  **Professors**
  - Chair, Christopher Jolley, MD, Pediatrics
  - Vice Chair: Peter Carek, MD, MS, Community Health and Family Medicine
Next meeting, Tuesday, September 1, 2015 at 5:00 pm in the Hugh Hall Conference Room

Check the website for information about meetings and activities:

Upcoming Educational & Professional Development Seminars:

Faculty Professional Development Series:
* Wed, August 26, "How to Succeed in Academic Medicine at UF" from 5:00 pm to 6:30 pm, location Medical Education Building Room 128.
  CLICK HERE TO REGISTER

* Thursday, Sept 16, "Developing your Individual Action Plan - a tool for goal setting and annual evaluations" from 5:00 pm to 6:30 pm, location Medical Education Building Room 128.
  CLICK HERE TO REGISTER

Faculty Educational Development Series:
* Thursday August 27, "Clinical Teaching Pearls" from 5:00 pm to 6:30 pm, Dr. Hatch, Robert L.
Thursday, September 24, "Faculty as Teachers (FasT)" special 3 hour workshop by Dr. Casey White and Dr. Eric Black covering several topics:

- setting expectations
- writing learning objectives
- active learning
- assessment and evaluation

Note: this is a required session for the Educational Certificate Series!

Look for announcements about upcoming sessions for the year.

Professional development topics will include:
For academic advancement: Preparing your educational and clinical portfolio
For wellness and work-life balance: Mindfulness-Based Stress Reduction; Achieving Work-Life Balance; Tips for being more organized

Educational Development series (in collaboration with the GME Committee):
Legal Issues in residency training
Addiction issues
GME funding
Leveraging GME for Academic Advancement
Unconscious Bias
Accommodations for residents with disabilities
Negotiating with your chair for GME activities
