SPOTLIGHT ON EDUCATION!

Throughout the months of April, May and June, the UF-UF Health Shands Wellness Committee and GatorCare will be providing employees with a wealth of information, programs and resources designed to help us all "Stress Less and Thrive!"

CLICK HERE FOR MORE INFORMATION
Instructional Design Workshop

There are so many technologies available when constructing an online course that creating a new course or program can seem overwhelming. The staff of the Center for Instructional Technology and Training (CITT) recognized the need for a workshop that would present all course design technology options available at UF, whether an instructor is looking to develop an online, blended or hybrid course, flipped classroom, or MOOC. The result is an online workshop for instructors interested in learning the pedagogical building blocks of online course design and management: [http://citt.ufl.edu/citt-services/citt-instructional-design-workshop/](http://citt.ufl.edu/citt-services/citt-instructional-design-workshop/). Instructors complete the five-seven hour online workshop at their own pace.

The Instructional Design Workshop provides participants with a student-perspective to online learning, while presenting data-supported theory and methods through lectures, readings, models, and links to additional state-of-the-art resources and information. The CITT's Instructional Design Workshop is not part of the Faculty Institute required for instructors teaching in UF Online. Rather, this overview of online learning provides excellent preparation for course development and design. Topics covered in this workshop include:

* The instructional design process
* Best practices for teaching online
* Lecture presentations
* Assignments and assessments
* Effective discussion boards
* Groups

Click [here](http://citt.ufl.edu/citt-services/citt-instructional-design-workshop/) to register for this workshop. Anyone with questions about the workshop or CITT instructional design services may [email](mailto:Stephanie McClelland).
Current Radiology Imaging Viewer System (iSite) will change to Visage

New imaging viewer will go live on June 30

“This update is for faculty and staff who provide care for UF Health Shands and UF Health Physicians patients.”

iSite, the current radiology imaging viewer that researchers, faculty and clinical teams use to access images, will soon be replaced by Visage. Visage will be available on June 30, and will run parallel to iSite until July 15, 2015, to give you time to adjust to the new system.

You can access Visage through a link on the left-hand side of a patient’s chart in Epic, within the Imaging tab in Chart Review, and on the UF Health Bridge. Visage will have full diagnostic capability and will allow you to access images through a search engine.

Find training documentation here: http://xray.ufl.edu/patient-care/pacs/. You can also view them on the UF Health Bridge by searching ‘Radiology PACS/VNA’. Click on the ‘Radiology PACS/VNA and Universal Viewer Project’ collaboration group to find resources.

Contact Marcia Rodriguez, UF Health Shands PACS administrator, at RODRMJ@radiology.ufl.edu or 352-494-2796 with any questions.

NEW GRANTS AWARDED!
Duane Mitchell, MD, PhD. Professor, Department of Neurosurgery has been awarded a National Institutes of Health new R01 grant entitled, "Enhancing Adoptive Immunotherapy Targeting Pediatric High-Grade Gliomas".

Yenisel Cruz-Almeida, PhD, MSPH. Assistant Professor, Department of Aging & Geriatric Research has been awarded a National Institutes of Health new K01 grant entitled, "Neuroimaging age-related changes in pain modulation".

Mark Segal, MD, PhD
Professor, Chief, Division of Nephrology, Hypertension & Renal Transplantation

Charles Wood, PhD
Professor and Chair, Department of Physiology & Functional Genomics

Drs. Segal and Wood have been awarded a National Institutes of Health T32 grant entitled, "Renal Training & Retention (RETAI N) Program".

CONGRATULATIONS ON PROMOTION AND TENURE 2015!

A number of our accomplished faculty have been promoted and/or tenured in the College of Medicine in Gainesville, effective July 1, 2015. Please congratulate your colleagues when you see them. We're proud of all you do and all you contribute to the College and your Departments.

Clinical Associate Professor
Associate Professor with Tenure

Lizi Wu, PhD
Department of MGM

Marco Salemi, PhD
Department of Pathology

Peter Kang, MD
Department of Pediatrics

Phil Efron, MD
Department of Surgery

Robert Feezor, MD
Department of Surgery

Benjamin Canales, MD
Department of Urology

Associate Scientist

Li Yin MD, PhD
Department of Pathology

Carolyn Ojano-Dirain, PhD
Department of Otolaryngology
Jing Chen, PhD
Department of Pathology

Clinical Professor

Ying Li, MD, PhD
Department of Pathology

Heather Harrell, MD
Department of Medicine

John Davis, MD
Department of Obstetrics and Gynecology

Robert Allan, MD
Department of Pathology

Maureen Novak, MD
Department of Pediatrics

Mirza Saleem-UI Islam, MD
Department of Surgery

Bruce Mast, MD
Department of Surgery

Greg Janelle, MD
Department of Anesthesiology
CONGRATULATIONS!

Maurice Swanson, M.S., Ph.D. Professor, Department of Molecular Genetics and Microbiology won the Basic Science Award at the 10th International Myotonic Dystrophy Meeting in Paris.

Tetsuo Ashizawa, M.D. Professor, Department of Neurology was awarded a Lifetime Achievement Award at the Basic Science Award at the 10th International Myotonic Dystrophy Meeting in Paris.

2015 Pepper RCDC
Feedback requested: MyUFHealth

On behalf of the MyUFHealth team, we would like your feedback to guide the development of our patient portal known as MyUFHealth. This quick, anonymous survey will help us improve MyUFHealth activation methods and features.

Please complete the survey here: https://bridge.ufhealth.org/myufhealth-survey/.

Note: This survey is for UF Health faculty and staff. Employees must be able to log in to the Bridge to respond. Only responses are shared with survey administrators.
