UF COLLEGE OF MEDICINE
FACULTY APPRECIATION RECEPTION

WEDNESDAY, APRIL 3, 2019
5:00PM – 7:00PM

HARRELL MEDICAL EDUCATION BUILDING, SCOTT COMMONS AREA
Welcome New Faculty!

Click here for photos and more information

Cynthia Cole D.V.M., Ph.D. Clinical Associate Professor, Department of Pathology and Laboratory Medicine
Ryan Kolb Ph.D. Research Assistant Scientist, Department of Pathology and Laboratory Medicine
Fumiaki Yokoi Ph.D. Research Assistant Professor, Department of Neurology
Weizhou Zhang Ph.D. Associate Professor, Department of Pathology and Laboratory Medicine
Wen-Chien Hsi Ph.D. Clinical Assistant Professor, Department of Radiation Oncology
Padraic O'Malley M.D. Clinical Assistant Professor, Department of Urology
Anna Murillo M.D. Clinical Assistant Professor, Department of Medicine, Division of Hematology and Medical Oncology
Aida Karachi D.V.M., Ph.D. Assistant Scientist, Department of Neurosurgery
Chandan Reddy M.D. Clinical Assistant Professor, Department of Neurosurgery
Roland Torres M.D. Clinical Associate Professor, Department of Neurosurgery

Congratulations!

The National Multiple Sclerosis Society

Brad Hoffman, PhD. Associate Professor, Department of Pediatrics, Division of Cellular and Molecular Therapy received the Scientific Researcher Award from the National Multiple Sclerosis Society at the MS Breakthroughs event held in Jacksonville. The award recognizes an outstanding scientist with distinguished MS research. Dr. Hoffman is a cellular immunologist investigating the use of adeno-associated virus (AAV) gene therapy to treat autoimmune disease. Earlier this year, Dr. Hoffman published an innovative gene-immunotherapy that can lead to regression of MS in animal models. For more information, please visit the Hoffman Lab website.

American Psychological Association

Lisa Merlo Greene, PhD. Associate Professor, Department of Psychology has been named a 2018 APA Citizen Psychologist by the American Psychological Association for her efforts to improve the community in Gainesville, Florida and beyond.

"Dr. Lisa Merlo Greene exemplifies the definition of a Citizen Psychologist by using psychology to make her community a better place," said 2018 APA President Jessica Henderson Daniel, PhD. "Helping to improve lives one community at a time is how we can change the world." Click here to read more.
Zareen Zaidi MD, PhD. Associate Professor, Department of Medicine, Division of General Internal Medicine delivered the Research in Medical Education (RIME) invited address at the annual Association of American Colleges (AAMC) Lead Serve Lead conference in Austin Texas on November 5, 2018. She spoke about fostering critical consciousness in medical education. Dr. Zaidi traced how curricula in medical education are sociopolitical documents, highlighting the need for educators, researchers and administrators to reflect on how power and difference shape social structure, interaction and therefore education.

New Grant Awarded!

Yi Qiu PhD. Assistant Professor, Department of Anatomy & Cell Biology has been awarded a new National Institutes of Health R01 grant entitled, "Epigenetic regulation of hematopoieses".

Laurence Morel, PhD. Professor, Department of Pathology, Immunology & Laboratory Medicine has been awarded a new National Institutes of Health R01 grant entitled, "Gut dysbiosis and tryptophan metabolism in lupus".

Annette de Kloet, PhD. Assistant Professor, Department of Physiology & Functional Genomics has been awarded a new National Institutes of Health R01 grant entitled, "Interrogating distinct angiotensin type-1 and type-2 receptor containing brain circuits to understand and alleviate hypertension".

Science Stroll January 25th

COM Faculty:

Please join us for a Science Stroll & Chat
Friday, January 25, 2018
11:45 am - 12:15 pm
The stroll will begin at the circle off Center Drive near the Biomedical Science Building and will continue through the UF Wilmot Gardens.

For more information, please contact Dr. Alice Rhoton-Vlasak (rhoton@ufl.edu) or Dr. Kimberly Sibille (ksibille@ufl.edu).

Provost's Symposium 2019
Empowering Students to be Active Learners
February 7-8
Journal writing, problem solving, paired discussions, case studies and role play -- just a few of the many active learning tools that can help engage students as active participants.

**How can active learning teaching strategies work in your classroom?**

**AGENDA AT A GLANCE**

**Evidence-Based Research & Effective Learning Strategies**
Susan Rundell Singer, Vice President for Academic Affairs and Provost, Rollins College
Former Department Director, Undergraduate Education, National Science Foundation

**Active Learning: Creating Inclusive and Engaging Classrooms**
Professor Robert Talbert, Department of Mathematics, Grand Valley State University

**What's Next? Developing Faculty Learning Communities at UF**
Jennifer Smith, Director, Office of Faculty Development and Technology, University of Florida

**Drawing for 6 iPad Pros during the lunch hour**

**RESERVE A SEAT**

Compliance & Privacy Awareness

**Awareness Survey**

If you have not done so already, please type [https://redcap.ctsi.ufl.edu/redcap/surveys/?s=M48A8NK9MX](https://redcap.ctsi.ufl.edu/redcap/surveys/?s=M48A8NK9MX) in your browser to take the UF Health Compliance and Privacy Awareness Survey 2019!
As a reminder, this online survey is completely confidential and anonymous, only takes a few minutes to complete, and will be available through January 31, 2019. We appreciate your responses thus far and look forward to increasing participation in the final weeks of the survey!

**Compliance & Privacy Awareness Month Event Schedule**

**January 2019**

Note: Physician Billing Compliance staff will also be present at events and departmental staff meeting events are not listed on calendar.

**Complete your Wellness Survey!**
Dear UFCOM Faculty,

If you have not yet completed your survey, you will receive an email invitation with a link to our faculty wellness needs assessment. We know you are very busy and that survey fatigue is real, but we hope you will invest about 10 minutes of your time to offer your feedback and suggest for the culture of wellness at UFCOM. You can complete only the sections or questions you wish.

Some important points regarding the survey:

- The primary purpose is to determine what FACULTY MEMBERS view as the most important needs—this information will be used to direct future interventions, programming, and resource allocation.

- The survey was developed by the UFCOM Director of Wellness Programs, with input from dozens of faculty members across the college—there are separate sections addressing needs for clinical, research, and teaching faculty (you may skip any sections that do not apply to you).

- The survey is completely anonymous—you will receive a personal survey link via the REDCap survey platform, but REDCap anonymizes all responses. No one will be able to link your responses to you.

- Once you complete the survey, REDCap will automatically stop sending you reminders!

Thank you in advance for your time in completing the survey. We look forward to using the results to plan meaningful change to improve the workplace environment and better support our faculty!

Happy holidays!

Lisa Merlo, PhD, MPE
Director of Wellness Programs

Marian Limacher, MD
Senior Associate Dean for Faculty Affairs & Professional Development

---

**New quarter, Get Up & Go, focuses on moving more**

Get moving this year with the following resources to help you "get up and go!"

- Wellness Wednesday presentations on healthy aging, simple ways to stay healthy and brain health
- Couch to 5k program starting January 14
- An educational chocolate tasting event in February
New recurring yoga class + special classes at the Florida Museum of Natural History

Classes at the Florida Museum of Natural History will be held Jan. 8 and Mar. 12

A new, recurring Tuesday night yoga class kicks off next week! Most sessions will be held at the Cancer and Genetics Research Complex, Room 451, at 2033 Mowry Road from 5:30 to 6:30 p.m. But on January 8 (next Tuesday) and March 12 the class will move to the Florida Museum of Natural History’s Thompson Gallery! All sessions will be led by Becca Chamberlain from Yoga Pod and will be the podFLOW 1 class, which focuses on setting an intention and then working through postures and sequences that increase flexibility and build strength. There will be some mats available to use, but bringing your own mat or towel is recommended. Be sure to check gatorcare.org/calendar for class changes or sign up for the Tuesday night yoga list serv here.

Bonus! Yoga Pod is offering UF and UF Health employees discounts during their first ever Wellness Week, January 28 through February 3. During this week, any UF or UF Health employee can take one free class at Yoga Pod and use a rental mat for free. Plus, everyone will have access to their '$30 for 30 days' introductory package if they want to try more classes!

GatorCare is proud to announce a partnership with WW

All GatorCare Members** can now take advantage of the WW Freestyle™ program at reduced pricing. No matter what your goal is—to lose weight, move more, develop a more positive mindset, or all of the above—WW will bring you the science-based programs and tools that work.

By enrolling through GatorCare’s program, members** can take advantage of a subsidy reducing the cost of WW membership by more than 50% of the regular membership price.

What’s even better? Members can join WW by 1/25/19 and get a FREE Jumpstarter Kit!

For more information and enrollment instructions, including how to transfer an existing membership to the reduced cost membership, visit the GatorCare WW website.

** Excludes GatorGradCare
Healthy Aging workshops from Elder Options

Take advantage of these free six or eight week evidence-based workshops designed to help participants adopt healthy behaviors to live better lives. Workshops include Tai-Chi Moving for Better Balance, Tai-Chi for Arthritis and Diabetes Empowerment Education. Learn more and register here or call (352) 692-5219.

Fill your Saturdays with art

This spring, the School of Art + Art History is offering seven-week art and design pre-college and continuing education courses for adults and high school students (ages 15+). The courses, are designed for all skill levels to give aspiring artists the chance to experience UF’s curriculum. The deadline to register is Jan. 1. UF employees and their children can receive a 10 percent discount. To learn more, please see the event invitation.
REGISTRATION NOW AVAILABLE!

All GatorCare members diagnosed with Type 1 or Type 2 diabetes are eligible to receive a True Metrix® glucometer and testing supplies every 90 days AT NO COST beginning January 1, 2019.

Members can follow the steps below:

- Get started by visiting Emmi, enter the code UF DIABETES, and complete the four online education modules.
- After registration, you will receive an e-mail from Emmi with your confirmation. Use the link and code provided to access your account and to see your overall progress.
- After viewing a video module, you will be prompted to complete a voluntary consent form allowing GatorCare access to A1c and BMI values from your electronic medical record. This information will help us to evaluate the success of this pilot program. You will only need to click on this link once.
- Have your physician send a prescription to UF Health Pharmacy – Medical Plaza 352-265-8270.
- Receive your meter and supplies in the mail or pick up at the pharmacy.
- Have any questions? Visit our FAQ page for more information.

This information will be available for members and can be found at GatorCare.org/diabetes. Email us at gatorcare@shands.ufl.edu for more information.
Leadership Series for Faculty
(who supervise TEAMS employees)

UF COM is a proud leader in public higher education medicine. To sustain our preeminence status, the faculty administrators who lead departments, research units, and the campus itself must be excellent, not only in research and teaching, but also in leadership, management, and administration. Join our COM-HR informational sessions to enhance your supervisory tools and share experiences for effective leaders.

**Women in Innovation**

An evening of storytelling, networking, reception and more!

Thursday, January 31, 2019
Cade Museum for Creativity + Invention
811 Main Street, Gainesville, FL
6:00 – 9:00 PM

*Storytelling session from* 
EWITS® (Empowering Women in Technology Startups) 
past participants hosted by Guts & Glory GNV

Join us for this special event at the beautiful Cade Museum and connect with past participants, mentors, speakers and panelists!

**OPEN TO ALL!**

**RSVP HERE:** tinyurl.com/EwitsAlumniReunion2019
STARTUP ROADMAP

Do you have an innovative idea or an early stage startup that has potential as scalable venture?

The Startup Roadmap provides an interactive, high-energy hands-on environment to roll up your sleeves and discover the business value proposition for your idea—and much more.

Designed for ideas and early stage companies, the Startup Roadmap uses a dynamic coaching format with the proven So what? who cares? why you?® methodology and tools from wendykennedy.com (WKI). You will work collaboratively with a WKI Certified Coach in weekly, small-group sessions to apply a business-focused lens to your idea and assess your readiness for the next stage of development—whether it’s incubation, licensing, or partnerships. At the end of the program, participants will have developed a commercialization roadmap to help launch their venture successfully, plus a pitch presentation deck for investors and other appropriate audiences. Open to all!
A Founder Focus - it’s about people with ideas coming together to explore the value. Small groups of founders working together to help each other discover the value of their ideas.

It's About Conversations - Active, dynamic conversations about business value, for people who are not ‘business people’. These conversations promote debates, laughter and intense discussion - and push founders to consider the possibilities for their ideas.

Hands-on and “Standing Room Always” - So what? who cares? why you? gets founders on their feet and working together. These are meetings where founders roll up their sleeves to work on the business value of their ideas.

Visual Tools - visual tools that are simple to understand. These tools provide a common language for both coaches and founders to be sounding boards and advisors.

You Draw, Brainstorm & Debate the Business Value - this is not business planning - this is a time to draw, sketch, model and map the possibilities for the future of an idea as a business. Business planning is a later stage activity. This is ideation around the business value.

Action Oriented & Outcome Driven - this is not a training class! this is a meeting where decisions get made and the business value is defined. Every So what? who cares? why you? session ends with actions token and an element of the business value decision made.

INTERESTED? APPLY HERE!

Starting February, 2019
Meets once a week
Cost: $150

SBIR/STTR Workshop

Tap into a New Source of Funding!

Wed., February 20
9 AM to 5 PM
UF Innovate | The Hub
747 SW Second Ave, Ste. 140

$50, includes lunch

Register today! https://tinyurl.com/SmallBiz2019

As it gets harder to find funding to move your innovation from the bench to the marketplace, small business grants and contracts are more important than ever. Help increase your competitive edge by joining us for our upcoming SBIR (Small Business Innovation Research)/STTR (Small Business Technology Transfer) workshop run by Jim Greenwood of Greenwood Consulting. This workshop is designed for any and all companies, entrepreneurs, inventors, researchers, and postdocs who want to be successful in applying for SBIR opportunities.

The SBIR/STTR Proposal Preparation Workshop begins with an overview of the programs and then takes you through a simple but comprehensive four-step process for developing a credible and competitive Phase 1 (up to $150,000) proposal. The day concludes with an overview of Phase 2 of the programs, with tips for companies preparing Phase 2 (up to $1 million) proposals. The workshop will include an emphasis on NIH and NSF applications.

SBIR is dedicated to fostering and encouraging participation in innovation and entrepreneurship by women and socially or economically disadvantaged persons.

Program announcement: Reengineering the clinical environment for precision medicine at UF Health

UF Health's Personalized Medicine Program, part of the CTSI, has a new name - the Precision Medicine Program - and is ushering in a new era of genetic medicine with the introduction of a new leadership team and preemptive pharmacogenetics testing.

Beginning in 2019, the program will launch a multi-gene pharmacogenetics panel developed by UF Health Pathology Laboratories. It will examine multiple drugs, multiple genes and, eventually, diseases to personalize drug therapy and disease risk assessment around an individual's genetic profile.

HSC Library Spring 2019 Workshops

The Health Science Center Library will offer the following workshops this semester, independent of registered coursework and open to all.

Unless otherwise noted, please register at least 24 hours in advance by clicking on the desired workshop link below or at: https://rod.sumtotalsystems.com/ufshands/learner/search/catalog?RootNodeID=-1&NodeID=276&UserMode=0

App-y Hour: Mobile Resources for Health
Thursday, February 21, 12-1pm, Communicore Building, Room C2-41A
Looking for high-quality mobile apps to help you in your work? In this session, we will provide brief overviews of a number of mobile apps for clinical work, research, teaching and learning, and productivity. We will also include tips on how to get mobile access to library-subscribed journals and databases.
https://mytraining-ufshands.sumtotals.host/core/pillarRedirect?relyingParty=LM&url=app%2Fmanagement%2FLMS_ActDetails.aspx%3FAcivityId%3D23725%26UserMode%3D0

App-y Hour: Mobile Resources for Health (Webinar)
Tuesday, February 5, 12-1pm, online
Same content as above. This session is available as a live webinar. Zoom link will be sent to registrants at least one week before the session.
https://mytraining-ufshands.sumtotal.host/core/pillarRedirect?relyingParty=LM&url=app%2Fmanagement%2FLMS_ActDetails.aspx%3FAcivityId%3D43388%26UserMode%3D0

Beginner's Workshop for HiPerGator
Wednesday, March 13, 1-2:30pm, Communicore Building, Room C1-121 (BITS)
UF Research Computing's Unix environment (HiPerGator) houses a range of tools used for bioinformatics analysis - including NCBI's E-utilities for retrieval of molecular biology data, NCBI's BLAST suites, and those appropriate for genomic data analysis. Topics for this beginner's workshop will include

- Accessing HiPerGator using different tools in Windows (i.e. Putty versus MobaXterm) or Mac
- Organization of folders in HiPerGator
- Basic command structures in Unix
- Basics of creating, removing, and copying files or folders
- Tools available for analysis of genomic data analysis and how to obtain help documentations

This workshop is extremely suitable for those new to or planning to use HiPerGator for their computational biology needs.
This workshop is extremely suitable for those new to or planning to use HiPerGator for their computational biology needs and helps set a foundation for a series of more in-depth bioinformatics analysis workshops taught by Alberto Riva from UF's Interdisciplinary Center for Biotechnology Research (ICBR). Access to HiPerGator is recommended for this workshop and bring your laptop if you prefer. Faculty can obtain trial access to HiPerGator for free. Lab personnel (i.e. graduate students, research staff, etc.) can request to be added onto PI's account if PI has already purchased space in HiPerGator. Request for access to HiPerGator can be done at https://www.rc.ufl.edu/access/account-request/. Laptop recommended. Please register by March 1.

Best Practices in Research Data Management
**Tuesday, March 12, 12-1pm, Communicore Building, Room C2-41C**
Learn practical strategies for best managing your research data. A number of U.S. funding agencies such as the National Science Foundation and the National Institutes of Health require researchers to supply plans for managing research data, called Data Management Plans (DMP), for all new grant proposals. This workshop will provide an overview of the questions to consider when creating a data management plan, with a focus on the DMPTool and tools for sharing your data at the University of Florida (e.g. subject-specific repositories). Topics include metadata and annotation, file formats and organization, storage, backups and security, and data sharing. The workshop is geared toward graduate students, faculty, and researchers.

Embase
**Wednesday, January 30, 12-1pm, Communicore Building, Room C1-121 (BITS)**
This class will take you step-by-step through effective literature search and save techniques-starting smartly, limiting efficiently, searching for specific info (authors, types of publications, specific journals), refining your search and exporting results to the bibliographic software.

Embase (Webinar)
**Tuesday, February 19, 11:30am-12:30pm, online**
Same content as above. This session is available as a live webinar. Zoom link will be sent to registrants at least one week before the session.

EndNote
**Tuesday, January 22, 9-10am, Communicore Building, Room C1-121 (BITS)**
**Wednesday, February 20, 12-1pm, Communicore Building, Room C1-121 (BITS)**
**Thursday, March 21, 1-2pm, Communicore Building, Room C1-121 (BITS)**
Come and see what you can do with EndNote, a program designed to help you organize your reference citations. You will learn how to create and navigate the EndNote libraries, enter individual citations, and search/retrieve citations from EndNote, as well as how to download citations from PubMed, library catalogs, other databases, and import them into your library. We will learn how to use the 'Cite While You Write' toolbar and different ways of inserting citations into your papers for publication. It's easy to generate a bibliography according to the style of any particular journal! This class focuses on the desktop version of EndNote and addresses some unique features of EndNote Online.

EndNote (Webinar)
**Thursday, March 7, 9-10am, online**
Come and see what you can do with EndNote, a program designed to help you organize your reference citations. You will learn how to create and navigate the EndNote libraries, enter individual citations, and search/retrieve citations from EndNote, as well as how to download citations from PubMed, library catalogs, other databases, and import them into your library. We will learn how to use the 'Cite While You Write' toolbar and different ways of inserting citations into your papers for publication. It's easy to generate a bibliography according to the style of any particular journal! This class focuses on the web-based version of EndNote (EndNote Basic, EndNote Web, EndNote Online). This session is available as a live webinar. Zoom link will be sent to registrants at least one week before the session.
Introduction to CINAHL

*Thursday, January 24, 10-11am, Communicore Building, Room C1-121 (BITS)*

*Tuesday, February 19, 2-3pm, Communicore Building, Room C1-121 (BITS)*

Looking for an introduction to the premier database of nursing and allied health literature? This class introduces you to basic and advanced search options; performing more accurate searches using CINAHL headings; using limits to narrow and refine your search; printing, emailing, and exporting your citations; creating a personal account to store your citations; and finding full-text articles.

https://mytraining-ufshands.sumtotal.host/core/pillarRedirect?
relyingParty=LM&url=app%2Fmanagement%2FLMS_ActDetails.aspx%3FActivityId%3D43399%26UserMode%3D0

Introduction to Critical Appraisal of Randomized Controlled Trials

*Thursday, January 31, 10:45-11:45am, Communicore Building, Room C2-41A*

*Thursday, February 7, 10:45-11:45am, Communicore Building, Room C2-41C*

The workshop will be presented in two sessions. The first session will include lecture and demonstration, introducing attendees to some tools that can be helpful when critically appraising an article. The second session will use a group discussion format to critique two articles; attendees will be required to critically read the articles in advance and come to the session prepared to discuss.

https://mytraining-ufshands.sumtotal.host/core/pillarRedirect?
relyingParty=LM&url=app%2Fmanagement%2FLMS_ActDetails.aspx%3FActivityId%3D38454%26UserMode%3D0

Introduction to Public Galaxy

*Wednesday, February 27, 10:30am-noon, Communicore Building, Room C1-121 (BITS)*

Galaxy is an open-source web-based platform for genomic data analysis including DNA seq, RNA seq, and ChIP-seq. You can get started with learning the basics of genomic data analysis using this public platform and then slowly transition into something more advanced such as analyzing your data on a Unix command line environment (HiPerGator at UF). This workshop will introduce you to Galaxy and we will discuss

- Upload of your data to the Galaxy workspace
- Running quality check on your data
- Perform alignment of your data to reference
- Identifying variants from your genomic data set

For those who already have HiPerGator accounts, it is recommended that you attend the Galaxy training offered by research computing instead (https://training.it.ufl.edu/training/items/galaxy-and-NGS-sequence-analysis-.html). Laptop recommended.

https://mytraining-ufshands.sumtotal.host/core/pillarRedirect?
relyingParty=LM&url=app%2Fmanagement%2FLMS_ActDetails.aspx%3FActivityId%3D43405%26UserMode%3D0

Introduction to Research Impact

*Thursday, April 11, 10:45-11:45am, Communicore Building, Room C2-41A*

This workshop will introduce attendees to some metrics commonly used to measure research impact, and suggest some steps they can take to improve their own impact.

https://mytraining-ufshands.sumtotal.host/core/pillarRedirect?
relyingParty=LM&url=app%2Fmanagement%2FLMS_ActDetails.aspx%3FActivityId%3D43407%26UserMode%3D0

Introduction to RNA Seq with Bioconductor

*Wednesday, March 27, 1-2:30pm, Communicore Building, Room C1-121 (BITS)*

The Bioconductor suite houses a range of tools used to obtain differential gene expression from RNA sequencing data. In this introductory workshop we will learn:

- The basic workflow of RNA sequencing analysis
- The use of Deseq2 and EdgeR for obtaining differential expression data.

Experience with R or attendance of the R for Beginners workshop would be helpful for those interested in attending this workshop. Laptop recommended.

https://mytraining-ufshands.sumtotal.host/core/pillarRedirect?
relyingParty=LM&url=app%2Fmanagement%2FLMS_ActDetails.aspx%3FActivityId%3D40922%26UserMode%3D0
Introduction to Systematic Reviews  
*Wednesday, February 13, 12-1pm, Communicore Building, C1-121 (BITS)*

This workshop covers steps in the process of conducting the literature searches that serve as the foundation of a high-quality systematic review. It defines and gives examples of the tasks involved: term harvesting, snowballing, tracking results, identifying/locating relevant grey literature.

Medical Terminology  
*Part 1: Tuesday, April 2, 12-2:00pm, Communicore Building, Room C1-121 (BITS)*  
*Part 2: Tuesday, April 9, 12-2:00pm, Communicore Building, Room C1-121 (BITS)*  
*Part 3: Thursday, April 11, 12-2:00pm, Communicore Building, Room C1-121 (BITS)*

Basics of medical terminology. Key concepts and word building, as well as the basics of body structure, including cells, tissues, organs and body planes will be covered. **Parts 1 and 2 make up a single 3-hour course.**

*Attendees should plan to attend all three sessions in order to complete the training.*

Mendeley: Citation Management for UF and Beyond  
*Thursday, January 24, 12-1pm, Communicore Building, Room C1-121 (BITS)*

Do you want a citation management software that will follow you wherever your education and career path take you? Mendeley is a free citation management resource that you can use during your time at UF or anywhere else you may go in the future. In this class, you will learn how to use Mendeley to import references from different databases (or other citation management software!), sort your citations and annotate papers, and insert collected citations directly into your own papers.

[https://mytraining-ufshands.sumtotal.host/core/pillarRedirect?relyingParty=LM&url=app%2Fmanagement%2FLMS_ActDetails.aspx%3FActivityId%3D34550%26UserMode%3D0](https://mytraining-ufshands.sumtotal.host/core/pillarRedirect?relyingParty=LM&url=app%2Fmanagement%2FLMS_ActDetails.aspx%3FActivityId%3D34550%26UserMode%3D0)

Mendeley: Citation Management for UF and Beyond (Webinar)  
*Thursday, February 7, 12-1pm, online*

Same content as above. This session is available as a live webinar. Zoom link will be sent to registrants at least one week before the session.

[https://mytraining-ufshands.sumtotal.host/core/pillarRedirect?relyingParty=LM&url=app%2Fmanagement%2FLMS_ActDetails.aspx%3FActivityId%3D43412%26UserMode%3D0](https://mytraining-ufshands.sumtotal.host/core/pillarRedirect?relyingParty=LM&url=app%2Fmanagement%2FLMS_ActDetails.aspx%3FActivityId%3D43412%26UserMode%3D0)

PubMed  
*Wednesday, January 23, 12-1pm, Communicore Building, Room C1-121 (BITS)*

This class will take you step-by-step through effective literature search and save techniques-starting smartly, limiting efficiently without losing "good stuff", searching for specific info (authors, types of publications, specific journals) and refining your search. Depending on participant interests/needs and time, we may also cover setting up email alerts, transferring to bibliographic software like RefWorks or EndNote, filtering for evidence-based studies, building collections within PubMed or other functions within PubMed.

R for Beginners  
*Wednesday, March 20, 1-2:30pm, Communicore Building, Room C1-121 (BITS)*

This workshop aims to introduce those who have not used R but are interested in its data analysis capabilities. Here we will get started by:

- Installing R and R Studio
- Addressing the features of the R Studio environment
- Installing free packages in R used to facilitate data analysis and plotting (i.e. ggplot2)
- Loading sample data onto R Studio and performing basic manipulation of the dataset
- Learning the basics of plotting in R
- Learning to perform basic statistical tests in R (if time permits)
Laptop recommended.

### Searching the Health Science Education Literature: Best Practices
**Wednesday, March 6, 2-3:30pm, Communicore Building, C1-121 (BITS)**

Have you ever struggled to find health science education related literature or wondered if you've done a comprehensive search? If so, this workshop will offer guidance on how to search library and other databases for the purposes of developing a review of the literature or the literature section for education related research studies. Topics include decided on the appropriate databases to search, coverage of education and health science databases, and designing effective search strategies that leverage the strengths of each database.

### Did You Know?

#### Renovations complete for outpatient clinic

In late December, the newly renovated Pediatric Infusion Center and Specialties Clinic began welcoming patients on the fourth floor of UF Health Shands Children’s Hospital. The updated unit features a larger waiting room, 16 large and more private infusion chairs each with a TV and gaming station, a waiting area for compromised patients, a nourishment area, more spaces for nurses and many other features designed to enhance the patient, family and staff experience.

"It's going to be nice to have all of our patients on one floor and all together again," UF Health Chief of Pediatric Hematology and Oncology Dr. William "Bill" Slayton said. [Click here for more information.](#)

### UF Health Highlights

---
Meet Dr. John Wingard, MD UF Health Cancer Center

More options for nursing mothers at UF Health

Nursing mothers now have two new places to conveniently and privately pump breast milk or breastfeed in our health science center complex. In early November, UF installed two additional modular "lactation pods," made by Mamava™: one in the Communicore Building (near the second-floor elevators) and one in the Health Professions, Nursing & Pharmacy, or HPNP Building (on the second floor). The latter is also accessible for people with disabilities.

This follows the success of our first Mamava™ lactation pod, introduced last fall in the public hallway near the first-floor outpatient pharmacy, between the UF Health Shands Hospital Atrium and the UF College of Dentistry/west entrance.
"Mothers who are on the go - such as our faculty, staff, residents and students - have even more resources where they can privately pump breast milk or feed an infant," said Dennis Hines, UF Health Medical and Health Administration associate director. "They are also available for visitors to these buildings. We're pleased to offer nursing mothers discreet and welcoming choices to support them where they work and go to school."

UF Business Affairs purchased the mobile units from Mamava for about $15,000 each. The manufacturer designs the pods "to reach mamas where they travel, receive health care, work, shop and play." The pods are now popular in high-traffic areas such as airports, shopping centers and hospitals.

Our pods require the user to use the free Mamava mobile app, which shows where pods are located and is used to unlock the pod door when it's unoccupied. Each well-lit unit is spacious and comfortable, with two molded plastic benches, a shelf, an electrical outlet and a USB port.

Hines added, "There was a great response to our first pod, and use of the app helped us track usage and make the case to purchase more units. These are great options to have in our busy academic health center that complement existing lactation resources."

**Did you know?**
UF Health has the community's only official "Baby-Friendly" hospital: UF Health Shands Hospital is designated by Baby-Friendly USA.

**Lactation locations:**
UF Health is committed to supporting, protecting and promoting breastfeeding. Our lactation resources available to faculty, staff, residents, outpatients, visitors and students at our Archer Road facilities now include:

- UF Health Shands Hospital, First Floor (near Outpatient Pharmacy and Outpatient Lab)
- UF Health Shands Hospital, Seventh Floor, Room 7502 (five pumping stations)
- UF Health Shands Cancer Hospital, Sixth Floor, Room 6012 (two pumping stations)
- UF Health Heart & Vascular and UF Health Neuromedicine hospitals, Fourth Floor, Rooms 4537 and 4539 (one individual pumping station in each room)
- Communicore Building, Second Floor (near the elevators)
- PHHP Building, Second Floor (in the lobby area between the College of Public Health and Health Professions and the College of Nursing sections). This Pod is an ADA-accessible unit to accommodate people with disabilities.

*Note: Our inpatients' needs are accommodated by lactation resources on hospital units.*

**Faculty Council Corner**

**Next meeting, Tuesday, February 5, 2019**

at 5:00 pm in M112

**Upcoming Educational & Professional Development Seminars:**
Check the website for information about meetings and activities:

http://facultycouncil.med.ufl.edu/

---

**JAX-Faculty Educational Development**

- **The scores are dropping, now what? Helping learners with test-taking difficulty**
  - Friday, January 25, 2019 at 12:00pm-1:00pm
  - Livestream link
  - Dr. Frank Genuardi

- **Developing program aims aligned with goals and objectives**
  - Wednesday February 20, 2019 at 5:00pm-6:00pm
  - Livestream link
  - Dr. Colleen Kalynych

---

**Learn-Discover-Lead Seminars**

- **How to Give Effective Lectures**
  - Friday February 8, 2019 at 12:00-1:00pm
  - Communicore CG-11
  - Dr. William E. Winter
  - Click Here to register

- **Communicating Science to Diverse Audiences**
  - Friday March 8, 2019 at 12:00-1:00pm
  - Communicore CG-11
  - Dr. Janice Krieger
