Farewell Celebration for Dr. Marian Limacher
Welcome New Faculty!

Click Here for Photos and More Information
New Grants Awarded!

David Bloom, PhD. Professor, Department of Neuroscience has been awarded a National Institutes of Health R01 grant entitled, "Molecular Genetics of HSV Reactivation".

Erica Levitt, PhD. Assistant Professor, Department of Pharmacology & Therapeutics has been awarded a National Institutes of Health R01 grant entitled, "Neural basis of opioid-induced respiratory depression".

Sylvain Doré, PhD. Professor, Department of Anesthesiology has been awarded a National Institutes of Health R21 grant entitled, "Potential stroke therapeutic efficacy of FumET-CORM through the Nrf2 pathway".
**Eric Wang, PhD.** Assistant Professor, Department of Molecular Genetics & Microbiology has been awarded a National Institutes of Health R01 grant entitled, "Impeding transcription of expanded microsatellite repeats using deactivated Cas9".

**Todd Manini, PhD.** Associate Professor, Department of Aging & Geriatric Research has been awarded a National Institutes of Health R21 grant entitled, "Wearable Technology Infrastructure to Enhance Capacity for Real-Time, Online Assessment and Mobility (ROAMM) of Intervening Health Events in Older Adults".

**Adriaan Bruijnzeel, PhD.** Professor, Department of Psychiatry has been awarded a National Institutes of Health R01 grant entitled, "Crosstalk between dopamine and glucocorticoids in high levels of nicotine intake and anhedonia in rats".

---

**Congratulations!**

State of Florida Department of Health

**Scott Rivkees, MD.** Chair and Professor, Department of Pediatrics has been appointed Surgeon General for the state of Florida and Secretary of the Florida Department of Health by Governor Ron DeSantis has. Dr. Rivkees is the current physician-in-chief at UF Health Shands Children's Hospital. He is an international expert on pediatric endocrinology and developmental biology who joined UF Health from Yale University in 2012. Please click here for more information.
Marian Limacher, MD. Senior Associate Dean and Eminent Scholar, Department of Medicine, Division of Cardiology was awarded the 2019 Woman of Distinction Award from the Association of Academic Women (AAW). The award was presented at the Women’s History Month Awards Reception at the Earl and Christy Powell University House on March 25, 2019 by President Kent Fuchs and Naz Erenguc, PhD, President AAW. Dr. Limacher was nominated for the award by the College of Medicine Women in Medicine and Science (WIMS).

Senior Associate Dean for Clinical Affairs

C. Parker Gibbs Jr., M.D. Professor, Department of Orthopaedic and Rehabilitation. Dr. Gibbs, the Eugene L. Jewett Professor of Orthopaedic Surgery, has been named the new Senior Associate Dean for Clinical Affairs. As Chief Medical Officer for UF Health Shands, he has overseen the medical staff who practice within the UF Health Shands hospitals and provided a framework for a culture of safety and measurement of the quality of care by physicians and other clinicians since 2016. He also represents the Gainesville-based hospital system in physician recruitment, credentialing, discipline and continuing medical education and continues to see patients as a practicing member of the medical staff. Gibbs was appointed deputy director of medical affairs for the UF Health Cancer Center in 2014.

As chief of the UF College of Medicine’s division of musculoskeletal oncology, he is one of fewer than 200 surgeons nationwide who are considered to be experts at limb-salvage surgery to treat bone and soft tissue sarcomas. Gibbs has been a National Institutes of Health/National Cancer Institute-funded investigator who earned his medical degree from UF in 1989 and completed his residency in orthopaedic surgery at the University of Colorado and fellowships in orthopaedic oncology and orthopaedic oncology research at the University of Chicago. He served as the director of musculoskeletal oncology at the University of Colorado for five years before
Senior Associate Dean for Faculty Affairs and Professional Development

Mark Segal, MD, PhD. Professor, Department of Medicine, Division of Nephrology, Hypertension, & Renal Transplantation, has been named the new College of Medicine Senior Associate Dean for Faculty Affairs and Professional Development.

Dr. Segal, chief of the division of nephrology at UF since 2010, earned his undergraduate degree at MIT and was than recruited to the Medical Scientist Training Program at the University of Texas Southwestern Medical Center at Dallas. He completed his internship and residency at Parkland Memorial Hospital in Dallas, and nephrology fellowship training at Beth Israel Deaconess Medical Center. He was awarded a KO8 award from the National Institutes of Health.

After one year as an instructor at Harvard Medical School, Segal was recruited to UF in 1999 as an assistant professor, rising through the ranks to full professor with tenure. He has an adjunct appointment in the division of rheumatology, as well as the department of anatomy and cell biology and the department of physiology and functional genomics.

His research interest is in cardiovascular disease in unique populations and he has been continuously funded by the NIH since 1998. His clinical area of expertise is in the treatment of patients with lupus nephritis, and he developed a joint clinic for patients with lupus with the division of rheumatology in 2002. In 2014 he received a Department of Medicine Inaugural Master Clinician Award and he has been named one of the Best Doctors in America.

Segal has mentored learners at every level from high school to postdoctoral students and he has won numerous teaching awards at both the department and college level. In 2017 he was awarded the Department of Medicine Exemplary Mentor Award.

He previously served on the College of Medicine's Promotion and Tenure Committee for a three year term and has been a member of the College of Medicine’s Compensation Committee for two terms.

Associate Dean for Faculty Development

Ellen Zimmermann, MD. Professor, Department of Medicine, Division of Gastroenterology, Hepatology & Nutrition has been named the new College of Medicine Associate Dean for Faculty Development.

Dr. Zimmermann serves as the vice chair for academic affairs for the Department of Medicine, where her focus includes helping to enhance faculty development, facilitating the promotion and tenure process, and mentoring junior faculty.

Zimmermann trained in medicine at the University of Wisconsin and in gastroenterology at the University of Michigan. After completing a postdoctoral research fellowship at the University of North Carolina, she returned to the University of Michigan, where she joined the GI division and established her NIH-funded lab.

While at Michigan, she served as GI fellowship director for five years and established and directed the university’s Crohn’s and Colitis Program, which grew to a nationally recognized Center of Excellence in inflammatory bowel disease, or IBD, research and innovative clinical care.

Zimmermann joined UF in 2013. Her clinical specialty is caring for patients with Crohn’s disease and ulcerative colitis, with particular interest in caring for college students with IBD. Her lab is funded by a U.S.-Israel Binational Science Foundation grant, an NIH and New York University Turing award, and a study on the microbiome and IBD. She also serves as the chair for the College of Medicine Internal Medicine Program.
Science Foundation grant and an NIH Small Business Innovative Research grant, both on drug discovery. She is an active leader in several national societies, including the American Gastroenterological Association. In her new position, Dr. Zimmerman has a particular interest in faculty retention, facilitating individualized mentoring, career development and women’s programs.

**Association of Medical School Neuroscience Department Chairs**

Lucia Notterpek, PhD. Chair and Professor, Department of Neuroscience has been selected as the President Elect of the Association of Medical School Neuroscience Department Chairs. The Association of Medical School Neuroscience Department Chairpersons (AMSND) is an organization dedicated to promoting neuroscience as a scientific discipline, and to represent the interests of departments within medical school settings whose major focus resides in research and training in the neural sciences.

**Association of Medical School Microbiology and Immunology Chairs**

Henry Baker, MD. Chair and Professor, Department of Molecular Genetics & Microbiology has been selected as the President Elect of the Association of Medical School Microbiology and Immunology Chairs. The Association of Medical School Microbiology and Immunology Chairs (AMSMIC) is an organization whose purpose is to promote, advance and support the educational and scientific purposes of the field of microbiology and immunology, and to provide a forum for communication among chairpersons of Departments of Microbiology and Immunology or equivalent organizational units responsible for teaching medical students.

**2019 Faculty Teaching Awards**

Phase 1 Teacher of the Year

Phase 2/3 Teacher of the Year
Peter Sayeski, PhD
Professor
Department of Physiology & Functional Genomics

Shelley Wells Collins, MD
Professor
Department of Pediatrics

2019 Faculty Research Awards

Basic Science Award

David R. Borchelt, PhD
Professor
Department of Neuroscience

Clinical Science Award

Frederick A. Moore, MD
Professor
Department of Surgery

2019 David A. Paulus, MD
Award for Clinical Excellence
Thomas S. Huber, M.D., PhD
Professor
Department of Surgery
Chief, Division of Vascular Surgery

2019 Faculty Council
Lifetime Achievement Award
Winners

Ira H. Gessner, MD
Eminent Scholar Emeritus
Department of Pediatrics

Marian C. Limacher, MD
Senior Associate Dean for Faculty Affairs and Professional Development
AHA Endowed Professor of Cardiovascular Research
Department of Medicine
Charles E. Wood, PhD  
Professor and Chair  
Department of Physiology & Functional Genomics

Completing 20 Years as UF Faculty

Manuel Arreola, PhD  Department of Radiology  
Meenakshi Devidas, PhD  Department of Biostatistics  
Stephan Eisenschenk, MD  Department of Neurology  
Paulette Hahn, MD  Department of Medicine  
Eileen Handberg, PhD  Department of Medicine  
Heather Harrell, MD  Department of Medicine  
Randal Henderson, MD  Department of Radiation Oncology  
Susan Horyk, MS  Department of Pediatrics  
Christopher Jolley, MD  Department of Pediatrics  
Leonid Moroz, PhD  Department of Neuroscience  
Maureen Novak, MD  Department of Pediatrics  
Donna Parker, MD  Department of Pediatrics  
James Smith, MD  Department of Medicine  
Alice Rhoton-Vlasak, MD  Department of Obstetrics & Gynecology  
Richard Vlasak, MD  Department of Orthopaedics & Rehabilitation  
Samuel Wu, PhD  Department of Biostatistics

Completing 30 Years as UF Faculty

Brian Cain, PhD  Department of Biochemistry & Molecular Biology  
Larry Chidgey, MD  Department of Orthopaedics & Rehabilitation  
Marvin Dewar, MD, JD  Department of Community Health & Family Medicine  
Walter Drane, MD  Department of Radiology  
Gordon Gibby, MD  Department of Anesthesiology  
Paul Gulig, PhD  Department of Molecular Genetics & Microbiology  
Jill Reed, DVM  Department of Medicine  
Avner Sidi, MD  Department of Anesthesiology  
R. Stan Williams, MD  Department of Obstetrics & Gynecology  
Thomas Yang, PhD  Department of Biochemistry & Molecular Biology

Completing 40 Years as UF Faculty

Paul Dell, MD  Department of Orthopaedics & Rehabilitation  
James Flanegan, PhD  Department of Biochemistry & Molecular Biology  
Janet Silverstein, MD  Department of Pediatrics
SMART Couples Florida
Making SMART Choices for Healthy Relationships

Relationship Skills Workshops

FREE, FUN, FOOD, AND GIFT CARDS

Improve Communication. Resolve Conflicts. Strengthen Your Relationship.

Premarital Workshop
Before You Tie the Knot
All classes meet once a week for 5 weeks

Tuesdays: Apr. 30th, May 7th, 14th, 21st, & 28th; 6:00 – 8:30pm
Thursdays: May 2nd, 9th, 16th, 23rd & 30th; 6:00 – 8:30pm
Location: University of Florida, McCarty Hall B, room 3096

Couples Workshop
ELEVATE: Taking Your Relationship to the Next Level
All classes meet once a week for 5 weeks

Mondays: Apr. 29th, May 6th, 13th, 20th, & 27th; 6:00 – 8:30pm
Wednesdays: May 1st, 8th, 15th, 22nd, & 29th; 6:15–8:45pm
Location: University of Florida, McCarty Hall B, room 3096

Enroll in a SMART Couples workshop today
Preregistration is required.
Please go to Classes & Events at smartcouples.org or contact

---

Funding for this project is provided by the United States Department of Health and Human Services, Administration for Children and Families, Grant: #90FESB0172-01-01; These services are available to all eligible persons, regardless of race, gender, age, disability or religion. In accordance with the Americans with Disabilities Act and Section 504, 26. F.S., persons needing accommodations or an interpreter to participate in programs should contact their UF/IFAS Extension office no later than 5 days prior to the scheduled meeting time or call 1-800-955-8771 (TDD).
Faculty Research Communications: Provost's Initiative
Submit your work to be eligible for a $1000 award from the Provost.
Submit your work to be eligible for a $1000 award from the Provost

One of the key elements of elevating the University of Florida’s national and international reputation in pursuit of top-five public university stature is creating national and international interest in your research through coverage in top-tier news media outlets such as the New York Times, the Wall Street Journal and cable and network news programming. UF’s Office of University Relations works with other campus communications professionals to seek out such research, but they rely heavily on you, the faculty, to inform them when your work has been accepted for publication in peer-reviewed journals.

Provost Joe Glover launched the Research Promotion Initiative in April 2018 to encourage faculty to submit their accepted, but unpublished academic research papers for the UF media team to pitch to national and international press and to highlight on UF’s online and social media platforms. If selected, a $1,000 award will be made to the research account of the lead author or whichever member of the research team is authorized to receive and manage funding.

For more information, including how to submit an entry, please go to http://identity.ufl.edu/rpi/.

Submissions from all areas of campus are welcome, but University Relations is especially interested in research in the following strategic focus areas:

- Neuroscience and the Brain
- Biodiversity and the Earth
- Food Safety and Sustainability
- Medicine and Global Health
- Latin America and the Caribbean
- Early Childhood Development
- Renewable Energy
- Cybersecurity
- Drones and Autonomous Vehicles

The $1,000 must be used on your research-related activities, such as travel, books and supplies, etc. All synopses, regardless of whether they are selected by University Relations, will be featured in the Faculty Update newsletter. In addition, entries that are not selected may still be featured on news and social media platforms by University Relations and/or college or unit communications offices.

Please note: If your paper has been accepted by a journal with an embargo policy, please be assured that University Relations will honor the terms of the embargo and they work only with journalists who agree to abide by those terms as well.
Tips on How to Make a "Local Lunchbox" This Friday

The final installment of the spring "In the Kitchen" series, sponsored by UF/IFAS Food Science and Human Nutrition and Field & Fork, returns this Friday at noon with a "Local Lunchbox" workshop. Learn delicious ways to incorporate more fresh, healthy foods into your diet. Registration is first-come, first-served, so email aestarcher@ufl.edu to RSVP. Can't make it in person? You can also tune in online via the UF at Work Facebook page.

Earth Day at the Atrium

UF Health Shands will host its 2nd annual Earth Day Celebration on April 18 in the North Tower Atrium. Booths will be demonstrating and celebrating sustainability initiatives and will include participants from facilities, food services, the OR, UFPD bike registration, GatorCare Wellness and more.

---

APR 19
In the Kitchen: Local Lunchbox Workshop
RSVP Required

Ready to Quit Tobacco?

This Earth Day, consider the environmental impact of tobacco use! If you're ready to quit, free help is available through Tobacco Free Florida and the Florida Area Health Education Centers (AHEC) Network. For GatorCare members, incentives are available for quitting tobacco.

Learn more about free ways to quit on GatorCare's Tobacco page.

Bring A Dark Chocolate Tasting to Your Area

Want to bring a dark chocolate tasting to your department or next event? Book the GatorCare dietitian and learn how to mindfully enjoy this treat with no guilt by selecting more nutritious chocolates. Flavor profiles, pairings, and health benefits will be discussed.

For more details or to book your tasting, contact bbes0001@shands.ufl.edu.
The Claude D Pepper Older Americans Independence Centers Coordinating Center announces a request for applications for 'rapid / freezer pilot studies.'

The Pepper OAIC Coordinating Center is seeking proposals to accelerate progress for clinical and translational research projects. These projects are intended to be lean (<$7,500), efficient, and relatively short term in order to generate preliminary data for submission of collaborative extramural grant applications and/or high impact
We particularly encourage novel uses of existing data, specimens (blood or tissue), or images from OAIC and aging-related research repositories.

A full RFA is attached. Please share this information with faculty at your Pepper Centers. Any additional questions can be sent to the Pepper OAIC Coordinating Center at peppercenter@wakehealth.edu or Dr. Dalane Kitzman at dkitzman@wakehealth.edu.

Applications will be due to the Pepper Coordinating Center by May 17, 2019.

Thank you,

The Pepper OAIC Coordinating Center
Abby Archer, Program Manager
The Claude D. Pepper OAIC Coordinating Center

Medical Center Boulevard \ Winston-Salem, NC 27157

Get Rewarded for Working on Your Health

Your wellness incentive program, Better You Strides, is now open! Receive a free biometric screening and complete your personal health assessment to get started.

**Program Checklist**

**Step 1:** Complete your biometric screening at a Quest Diagnostics lab or an onsite event or using lab results from a recent doctor’s visit

**Quest Diagnostics Lab:**

Schedule your screening at a participating lab at a time and location that works best for YOU! Participating labs are located across the state including five locations in Gainesville. Appointments are required. [Directions to schedule your appointment can be found here](#). Screenings at a Quest Lab are not considered work time.

**Onsite at one of the hospitals:**

Screenings will be held at the UF Health Shands Hospital Atrium and UF Health Shands Cancer Hospital from April 22-May 3. [Register for your screening here](#). Receive a $5 lunch gift card for completing your screening at one of the onsite events! Note: parking passes are not available to event attendees.
Lab results from a recent doctor's visit:
You may use lab results from a recent doctor's visit to fulfill your biometric screening requirement. Please carefully follow the directions on this page to do so.

Step 2: Login to your Better You Strides platform to complete your online health assessment and start earning points

If you participated last year:
Login to your existing Better You Strides portal through floridablue.com (for GatorCare subscribers) or floridablue.com/betteryoustrides (for GatorCare members who are covered as a spouse on their GatorCare plan but would but would be eligible for their own GatorCare plan and who work for COM) or your CafeWell mobile app.

If you did not participate last year:
Create your Better You Strides account by following the directions below. Please note that directions are slightly different for those who are the subscriber on their GatorCare health plan and those that are covered as a spouse.

GatorCare subscribers/contract holders
Login to your floridablue.com account. Navigate to the Better You Strides section on the right side of your home page. Click "Get Started" to create your account.
When registering, pay special attention to the format required for inputting your password, date of birth and member ID number. Date of birth must include "/" and your member number must start with "H."

GatorCare members (who are covered as a spouse on their GatorCare plan but would but would be eligible for their own GatorCare plan) who work for COM

Navigate to floridablue.com/betteryoustrides. Click "Register Now" to create your account.

Once you are logged in, take the Health Assessment. If you do not see this on your home page, search in the 'Add programs' section.

Step 3: Complete wellness activities through the Better You Strides platform to earn points and get rewarded.
Earn 300 points by September 30 to go shopping. You may spend your 300 points ($100 value) as soon as you earn them AND can now redeem for gift cards in the shopping mall!

Questions? Email GatorCare.

Talent Management
Strategic Talent Management is a new way to describe HR services that many of you and your teams already know and use. What makes it new is how employee Recruiting, Onboarding, Developing, and Recognizing areas will work.
and use. What makes it new is how employee Recruiting, Onboarding, Developing, and Recognizing areas will work together in a more intentional and coordinated way, resulting in greater positive impact and employee retention.

Did You Know?
UF is on par nationally when it comes to rates of faculty leaving, but it is still working to address why. Faculty turnover rates are measured as the rate in which faculty leave, usually over the course of a year, said Jodi Gentry, the vice president of UF Human Resources. At UF, turnover rates are in line with the national average at about 10 percent for non-tenured faculty and about 5 percent for tenured. [Continue Reading]

UF Health Highlights

Meet Dr. Luis Pulido in the Department of Orthopaedics and Rehabilitation

More options for nursing mothers at UF Health
Nursing mothers now have two new places to conveniently and privately pump breast milk or breastfeed in our health science center complex. In early November, UF installed two additional modular "lactation pods," made by Mamava™: one in the Communicore Building (near the second-floor elevators) and one in the Health Professions, Nursing & Pharmacy, or HPNP, Building (on the second floor). The latter is also accessible for people with disabilities.

This follows the success of our first Mamava™ lactation pod, introduced last fall in the public hallway near the first-floor outpatient pharmacy, between the UF Health Shands Hospital Atrium and the UF College of Dentistry/west entrance.

"Mothers who are on the go - such as our faculty, staff, residents and students - have even more resources where they can privately pump breast milk or feed an infant," said Dennis Hines, UF Health Medical and Health Administration associate director. "They are also available for visitors to these buildings. We're pleased to offer nursing mothers discreet and welcoming choices to support them where they work and go to school."

UF Business Affairs purchased the mobile units from Mamava for about $15,000 each. The manufacturer designs the pods "to reach mamas where they travel, receive health care, work, shop and play." The pods are now popular in high-traffic areas such as airports, shopping centers and hospitals.

Our pods require the user to use the free Mamava mobile app, which shows where pods are located and is used to unlock the pod door when it's unoccupied. Each well-lit unit is spacious and comfortable, with two molded plastic benches, a shelf, an electrical outlet and a USB port.

Hines added, "There was a great response to our first pod, and use of the app helped us track usage and make the case to purchase more units. These are great options to have in our busy academic health center that complement existing lactation resources."

Did you know?
UF Health has the community's only official "Baby-Friendly" hospital: UF Health Shands Hospital is designated by Baby-Friendly USA.

Lactation locations:
UF Health is committed to supporting, protecting and promoting breastfeeding. Our lactation resources available to faculty, staff, residents, outpatients, visitors and students at our Archer Road facilities now include:

- UF Health Shands Hospital, First Floor (near Outpatient Pharmacy and Outpatient Lab)
- UF Health Shands Hospital, Seventh Floor, Room 7502 (Suite office)
- Outpatient Pharmacy, Level 1, Room 7502 (Suite office)
UF Health Shands Hospital, Seventh Floor, Room 7502 (five pumping stations)
UF Health Shands Cancer Hospital, Sixth Floor, Room 6012 (two pumping stations)
UF Health Heart & Vascular and UF Health Neuromedicine hospitals, Fourth Floor, Rooms 4537 and 4539 (one individual pumping station in each room)
Communio Building, Second Floor (near the elevators)
PHHP Building, Second Floor (in the lobby area between the College of Public Health and Health Professions and the College of Nursing sections). This Pod is an ADA-accessible unit to accommodate people with disabilities.

Note: Our inpatients’ needs are accommodated by lactation resources on hospital units.

Next meeting, Tuesday, May 7, 2019 at 5:00 pm in M112

Check the website for information about meetings and activities:
