You and Your Guest are Invited to Attend the UF College of Medicine Faculty Appreciation Reception

*Celebrate with your colleagues in a relaxed, social setting

*Gold pins will be presented to faculty with 20, 30 and 40 years of service

*2019 winners will be announced for:
Clinical & Basic Science Teachers of the Year
David A. Paulus Award for Clinical Excellence
Faculty Council Lifetime Achievement Awards
Clinical & Basic Science Research Awards

Wednesday, April 10, 2019
5:00PM – 7:00PM
Harrell Medical Education Building, Scott Commons Area

Click here to RSVP by April 5
Diversity and inclusion are core values at the UF College of Medicine. The Celebration of Diversity Week was designed to honor those values and explore opportunities to work within our community to promote cross-cultural understanding and address health care disparities. Please see a full list of events for the 2019 celebration, taking place April 1-6, below.

Monday, April 1
Deans' Grand Rounds: "The Minority Workforce in the Basic Sciences and Research World"
11:30 a.m. - 1 p.m. | George T. Harrell, M.D., Medical Education Building
North Learning Studio (Room #125)

UF College of Medicine interim dean Dr. Joseph A. Tyndall and UF College of Dentistry dean Dr. Isabel Garcia present the deans' grand rounds with guest speaker Dr. Hannah Valantine, chief officer of scientific workforce diversity for the National Institutes of Health.

Lunch provided to the first 100 attendees.

Can't make it to the event? [View the live stream](#).

Tuesday, April 2
"Presence & Belonging: Developing a Framework for Transformation" by UF Chief Diversity Officer Antonio Farias
11:30 a.m. - 1 p.m. | George T. Harrell, M.D., Medical Education Building
Antonio Farias arrived at the University of Florida from Wesleyan University in 2018. As UF’s first chief diversity officer, Farias is charged with supporting an environment in which all members of the university community can achieve their goals.

Lunch provided to the first 100 attendees.

Can't make it to the event? View the live stream.

Wednesday, April 3
Soul Pancake Student Activity
11 a.m. - 1 p.m. | George T. Harrell, M.D., Medical Education Building Terrace
Students are welcome to participate in various activities that allow them to connect with and get to know their peers.

Presentation by Dr. Henri Ford
11:30 a.m.- 1 p.m. | George T. Harrell, M.D., Medical Education Building North Learning Studio (Room #125)
Dr. Henri Ford, dean of the University of Miami Miller School of Medicine, will join us for grand rounds.

Lunch provided to the first 100 attendees.

Can't make it to the event? View the live stream.

Thursday, April 4
Department of Pediatrics Grand Rounds
8 a.m. | Communicore C-14
2007 UF College of Medicine graduate Sarah Vinson, M.D., will present grand rounds for the department of pediatrics. Dr. Vinson is an assistant professor of clinical psychiatry and assistant professor of clinical pediatrics at Morehouse School of Medicine. She also serves as an adjunct faculty member at Emory University School of Medicine. In addition to her academic roles, she is a mental health integrated care consultant at HEALing Community Center and a Carter Center consultant.

While at UF, she received a Distinguished Service Award and served as president of the Student National Medical Association. Dr. Vinson received the Morehouse School of Medicine Psychiatry Faculty of the Year award in 2015, is the president of the Georgia Council on Child and Adolescent Psychiatry, and is a past recipient of the American Psychiatric Association Diversity Fellowship at Emory University. Her work involves outreach efforts to de-stigmatize mental illness among minority communities, including creating the online resource Ourselvesblack.com.

"Solving for X in the Y Domain: Strategies for Overcoming Gender Barriers to Leadership" Lecture
4 p.m. | UF Cancer & Genetics Research Complex Auditorium

The UF College of Medicine, in partnership with UF’s Academic and Professional Assembly, Women in Medicine and Science, One Health Center of Excellence, and Association of Academic Women organizations, will host a
and Science, One Health Center of Excellence, and Association of Academic Women organizations, will host a leadership skills lecture and reception for women in the STEM professions. The lecture will be given by renowned author, organizational psychologist and executive coach Gae Walters, Ph.D., who works extensively with women who hold senior leadership positions in the STEM professions. Her talk will focus on developing strategies and responses to issues of institutionalized gender bias and backlash. A networking reception will follow in the atrium. Registration is required.

Friday, April 5
"But First You Must Cross the Blood-Brain Barrier: Treating HIV Within the Brain" Research Presentation
11:30 a.m. - 1 p.m. | George T. Harrell, M.D., Medical Education Building South Learning Studio (Room #135)

Dr. Dionna Williams, an instructor of molecular and comparative pathobiology and an instructor of medicine at The Johns Hopkins University School of Medicine, will join us for a research presentation.

Lunch provided to the first 100 attendees.

Can't make it to the event? View the live stream.

Department of Psychiatry Grand Rounds
Noon | McKnight Brain Institute Lauretta & John DeWeese Auditorium (Room #LG-101A)

Join the UF College of Medicine department of psychiatry for a grand rounds panel moderated by Dr. Andres Pumariega, chief of the division of child and adolescent psychiatry.

Saturday, April 6
Equal Access Clinic Student-Alumni Health Fair
10 a.m. - 2 p.m. | UF Health Family Medicine - Eastside

Join students, faculty and Equal Access Clinic alumni in providing health screenings, blood glucose and blood pressure checks and overall wellness checks. The event will also include food trucks and a "kid's korner" with face-painting and a balloon artist.

To volunteer, please contact medical student Ciara Styles at cmonet2013@ufl.edu. Setup will begin at 9 a.m. and breakdown will conclude at 3 p.m.

Office for Diversity and Health Equity Emerald Ball
6 - 10 p.m. | George T. Harrell, M.D., Medical Education Building Scott Commons

Congratulations!

Doctoral Dissertation Advisor/Mentoring Award
Martin Cohn, PhD. Professor, Department of Molecular Genetics and Microbiology has been selected as one of five recipients for a 2018-2019 Doctoral Dissertation Advisor/Mentoring Award. His dedication to the support of graduate education and sponsorship of student research reflects the highest standard of excellence. The award will be presented this spring.

The National Coalition for Women with Heart Disease

Carl J. Pepine, MD. Professor, Department of Medicine is the recipient of the Wegner Award for his research in the women's heart health field by the The National Coalition for Women with Heart Disease. The former chief of the UF Health division of cardiovascular medicine has dedicated much of his work to women's cardiovascular health for nearly four decades. Click here to read more

"Celebrating Wellness" Week Feedback

Given that this was the inaugural "Celebrating Wellness" week, we recognize that we were not able to plan events that were at a convenient time/place for everyone. However, our goal is not to limit a focus on wellness to one week, so we look forward to expanding future programming to those who were unable to participate.

Click here to complete this brief survey, which will help us with future programming.

Everything we do at UF Health focuses on our patients and our commitment to provide them with the highest possible standards of quality care. Patient Safety and Quality Week - March 18-21 - presented by the UF Health Sebastian Ferrero Office of Clinical Quality and Patient Safety, highlights our dedication to that mission. Join us for a week of fun, educational activities and events at UF Health facilities.

The schedule is as follows:

MONDAY, MARCH 18
Team Safety and Quality Awards for Hospital Goal Improvement

Times and locations for Team Safety and Quality Awards based on winners

- Our faculty and staff teams display a strong commitment to patient safety and quality improvement via
multidisciplinary initiatives and original projects. These awards were established to recognize outstanding individuals (Quality Hero Awards) and the best team projects (Team Safety and Quality Awards) in patient safety and quality.

**Improvement Project Podium Presentations**  
11:30 a.m. - 1 p.m., Communicore Building, Room C1-15 - Lunch provided

- Learn about a variety of patient safety improvement projects that have demonstrated methods and measures that are improving patient safety in the home and the hospital.
- Podium presentations livestream link:  
  https://mediasite.video.ufl.edu/Mediasite/Play/013cf48941364fbb80330c25668bf3271d

**TUESDAY, MARCH 19**  
**Keynote speaker Carma Bylund, Ph.D. and panelist discussion highlighting best practices from top quality performers at UF Health**  
11:30 a.m. - 1 p.m., George T. Harrell, M.D. Medical Education Building (HMEB)  
North Learning Studio, Room 125 - Lunch provided

- Attend a compelling presentation by guest speaker Carma Bylund, Ph.D., who is an associate professor in the University of Florida department of public relations with an additional appointment in the STEM center and in the UF College of Medicine department of medicine division of hematology and oncology. Her didactic presentation, *Communication in Healthcare: Research, Evidence and Best Practices from Experience Clinicians*, will help to explain which patient and provider outcomes are influenced by communication in health care using research and evidence based outcomes. It will also help name several communication best practices that clinicians at UF Health have successfully used and identify one new communication best practice to integrate into daily practice.
- The panel discussion will highlight best practices featuring the following top quality performers at UF Health:
  - **C. Parker Gibbs, M.D.**, chief medical officer, UF Health Shands; division chief and Eugene L. Jewett professor of orthopaedic surgery, UF College of medicine
  - **Jeffrey Budd, M.D.**, assistant professor, division of general internal medicine, UF College of Medicine
  - **Marie-Carmelle Elie, M.D.**, associate professor, department of emergency medicine, UF College of Medicine  
  - **Laurel Barwick, R.N.**, consultation liaison, Pediatric Critical Care ICU, UF Health Shands Children’s Hospital
  - **F. Dylan Moquin, RPGST, R.S.T.**, coordinator, UF Health Sleep Center
- 1.0 CE credit available for Nursing, Pharmacy, Medical Staff and Respiratory Therapy.
- Livestream link:  
  https://mediasite.video.ufl.edu/Mediasite/Play/9d653ae64ea84a849011524efbf7bb241d

**WEDNESDAY, MARCH 20**  
**Improvement Project Poster Session**  
10 a.m.-2 p.m., UF Health Science Center Founders Gallery - Refreshments provided

- Explore patient safety and quality initiatives that our faculty and staff implemented last year.

**THURSDAY, MARCH 21**  
**Leadership Series: Root Cause Analysis and Quality Improvement Project Workshops**  
11:30 a.m. - 1 p.m., UF Health Shands Cancer Hospital Auxiliary Conference Room  
- Refreshments provided

- **Leadership Series: Quality Improvement (QI) 101**  
  - Room 1204  
  - Session times: 11:30 a.m. - 12:10 p.m.; 12:20-1 p.m.

- **Leadership Series: Root Cause Analysis (RCA) Speed Dating**  
  - Room 1205  
  - Session times: 11:30 a.m. - 12:10 p.m.; 12:20-1 p.m.

- These leadership series will help familiarize and expose the audience to the RCA and/or QI processes.

- Leadership series livestream link:  
  https://mediasite.video.ufl.edu/Mediasite/Play/2b823b0256c6436cbca47f4809485cd21d
In addition to these events, *In Situ simulations* will be held around the hospital throughout the week.

For more information about Patient Safety and Quality Week events, visit the UF Health Bridge [bridge.UFHealth.org](http://bridge.UFHealth.org) home page under "FYI: Announcements - Quality."
Celebrating National Doctors’ Day
Faculty Luncheons

Friday, March 29

UF Health will host Doctors’ Day luncheons for all UF Health physicians:
Friday, March 29
11:30 a.m. - 1 p.m.

UF Health Shands Hospital Founder’s Gallery
UF Health Shands Cancer Hospital Room 5011
Springhill 2 Conference Room 1115

Please join the UF Health leadership team as we celebrate you during Doctors’ Day 2019. This is our opportunity to recognize you for your tireless work, your dedication to your patients and for the contributions you make to our community.
FERTILITY PRESERVATION SYMPOSIUM 2019

Oncofertility: Fertility Preservation & Quality Reproductive Survivorship

April 27, 2019 | Harrell Medical Education Building | Gainesville, FL

HEAR RECENT CASE STUDIES IN ONCOFERTILITY

LEARN CURRENT STRATEGIES FOR FERTILITY PRESERVATION IN CANCER SURVIVORS

LEARN HOW TO DISCUSS OPTIONS TO HELP SURVIVORS BUILD A FAMILY AFTER TREATMENT

Designed to help providers recommend reproductive survivorship care and fertility preservation options for cancer patients.

Lecture Topics Include:

Ovarian Tissue Freezing
Sperm Banking
Care of Post-Treatment Reproductive Issues
Building an Oncofertility Program
And More!

fertilitypreservation.cme.ufl.edu

Continuing Medical Education
UNIVERSITY of FLORIDA
Faculty Research Communications: Provost’s Initiative
Submit your work to be eligible for a $1000 award from the Provost

One of the key elements of elevating the University of Florida’s national and international reputation in pursuit of top-five public university stature is creating national and international interest in your research through coverage in top-tier news media outlets such as the New York Times, the Wall Street Journal and cable and network news programming. UF’s Office of University Relations works with other campus communications professionals to seek out such research, but they rely heavily on you, the faculty, to inform them when your work has been accepted for publication in peer-reviewed journals.

Provost Joe Glover launched the Research Promotion Initiative in April 2018 to encourage faculty to submit their accepted, but unpublished academic research papers for the UF media team to pitch to national and international press and to highlight on UF’s online and social media platforms. If selected, a $1,000 award will be made to the research account of the lead author or whichever member of the research team is authorized to receive and manage funding.

For more information, including how to submit an entry, please go to http://identity.ufl.edu/rpi/.

Submissions from all areas of campus are welcome, but University Relations is especially interested in research in the following strategic focus areas:

- Neuroscience and the Brain
- Biodiversity and the Earth
- Food Safety and Sustainability
- Medicine and Global Health
- Latin America and the Caribbean
- Early Childhood Development
- Renewable Energy
- Cybersecurity
- Drones and Autonomous Vehicles

The $1,000 must be used on your research-related activities, such as travel, books and supplies, etc. All synopses, regardless of whether they are selected by University Relations, will be featured in the Faculty Update newsletter. In addition, entries that are not selected may still be featured on news and social media platforms by University Relations and/or college or unit communications offices.

Please note: If your paper has been accepted by a journal with an embargo policy, please be assured that University Relations will honor the terms of the embargo and they work only with journalists who agree to abide by those terms as well.

**Wellness**
University of Florida and UF Health

**Spring Walking Challenge registration is now open**

Add a little *spring* in your step and face those April showers head-on! Jack Pfaff, team captain of the infamous Luke Skywalkers, recommends a raincoat and a shoe dryer (or his teammates’ more conventional method of walking inside) to get in those steps during the
Register your team today for the 6-week Spring Walking Challenge, starting April 1. Teams of 4-20 can register using the Walker Tracker platform in one of three divisions. This spring's challenge will also include mini challenges peppered throughout the six weeks.

Click here for additional details and to register your team. Click here to print and post the flier in your area.

---

**Team Spotlight**

Learn more about the reigning champs, the Luke Skywalkers, who have dominated the ultra competitive division. Jack Pfaff, their team captain, gives us some insight below.

You guys have been wildly successful. Tell us about a day in the life of a Luke Skywalker during the walking challenge. How do you get so many steps?

We set a goal for the team to get a certain number of steps each day. So that determines each person's day. For some of us it is a 5 a.m. alarm to get 3-5 miles in before work. For some it is a 4-5 mile walk at lunch, but for all it is a second walk in the evening to get to the daily goal.

How do you guys encourage each other as a team?
That's easy; we are all super competitive as a group so we have a check-in during the day and rib each other if someone's not pulling their weight. That of course is not me; it is others on the team. As the captain I frown on anything but positive reinforcement. If you have heard anything else it is simply not true...

What advice would you give other teams who may be just starting out?
Competition keeps us young. So for most of us Luke Skywalkers, our athletic careers are over but this is an avenue to compete for something bigger than yourself; it is an opportunity to compete with friends.

What will it take to rename your team to the Psycho Pfaffs?
Simple...Someone knock off the Luke Skywalkers from the trophy and we will consider a name change. Until then Luke Skywalkers it is!

The Luke Skywalkers take the competition to the next level, but fear not if your team is just starting out. With three divisions, your team can choose which level it would like to compete at based on your current routines. This challenge is designed to help you move more, whatever that looks like! For former athletes, that may be 20,000+ steps a day. For others, that may mean trying to consistently hit 8,000-10,000 steps.

---

**Baby Gator Spring Scurry, April 27th**

Come out and support Baby Gator Child Development and Research Center at the University of Florida in this family fun 5k walk or run on Saturday, April 27th. Children are invited to walk, bike, run or ride in their stroller with their family. Little ones can participate in a diaper dash before the race at 8:30 a.m. The race begins at 8:45 a.m. Learn more and register here.
To celebrate National Nutrition Month, we are hosting a Healthy Potluck Challenge. You can bring this challenge to your department by using the Healthy Potluck Challenge Toolkit found on the [UFHR Worklife](https://www.ufhr.ufl.edu) website. Departments willing to accept this challenge can choose a theme, enjoy a nutritious potluck together and submit entries to win a giveaway. Do you accept this challenge?

#HealthyTogetherUF

**Portion Control for Weight Loss Webinar, March 20th**

Portion control is an important part of maintaining a healthy diet and a critical step if you're trying to lose a few pounds or maintain your weight. The good news is that with some basic tools and a little practice, portion control is easy to do and can help you be successful in reaching your weight goals. Don't miss this opportunity to talk with a Dietitian and learn more about portion control for weight loss.

Join this free online webinar and chat session sponsored by Florida Blue and Sanitas on March 20th from 12 to 1 p.m. Register [here](https://www.ufhr.ufl.edu).
The Health Science Center Library will offer the following workshops this semester, independent of registered coursework and open to all. Unless otherwise noted, please register at least 24 hours in advance by clicking on the desired workshop link below or at: https://rod.sumtotalsystems.com/ufshands/learner/search/catalog?RootNodeID=-1&NodeID=276&UserMode=0

EndNote

Thursday, March 21, 1-2pm, Communicore Building, Room C1-121 (BITS)

Come and see what you can do with EndNote, a program designed to help you organize your reference citations. You will learn how to create and navigate the EndNote libraries, enter individual citations, and search/retrieve citations from EndNote, as well as how to download citations from PubMed, library catalogs, other databases, and import them into your library. We will learn how to use the 'Cite While You Write' toolbar and different ways of inserting citations into your papers for publication. It's easy to generate a bibliography according to the style of any particular journal! This class focuses on the desktop version of EndNote and addresses some unique features of EndNote Online.

https://mytraining-ufshands.sumtotal.host/core/pillarRedirect?relyingParty=LM&url=app%2Fmanagement%2FLMS_ActDetails.aspx%3FAActivityId%3D23407%26UserMode%3D0

Introduction to Research Impact

Thursday, April 11, 10:45-11:45am, Communicore Building, Room C2-41A
Introduction to RNA Seq with Bioconductor

**Wednesday, March 27, 1-2:30pm, Communicore Building, Room C1-121 (BITS)**

The Bioconductor suite houses a range of tools used to obtain differential gene expression from RNA sequencing data. In this introductory workshop we will learn:

- The basic workflow of RNA sequencing analysis
- The use of Deseq2 and EdgeR for obtaining differential expression data.

Experience with R or attendance of the R for Beginners workshop would be helpful for those interested in attending this workshop. Laptop recommended.

https://mytraining-ufshands.sumtotal.host/core/pillarRedirect?relyingParty=LM&url=app%2Fmanagement%2FLMS_ActDetails.aspx%3FAcivityId%3D40922%26UserMode%3D0

Medical Terminology

**Part 1: Tuesday, April 2, 12-2:00pm, Communicore Building, Room C1-121 (BITS)**

**Part 2: Tuesday, April 9, 12-2:00pm, Communicore Building, Room C1-121 (BITS)**

**Part 3: Thursday, April 11, 12-2:00pm, Communicore Building, Room C1-121 (BITS)**

Basics of medical terminology. Key concepts and word building, as well as the basics of body structure, including cells, tissues, organs and body planes will be covered. **Parts 1 and 2 make up a single 3-hour course.**

Attendees should plan to attend all three sessions in order to complete the training.

https://mytraining-ufshands.sumtotal.host/core/pillarRedirect?relyingParty=LM&url=app%2Fmanagement%2FLMS_ActDetails.aspx%3FAcivityId%3D23441%26UserMode%3D0

https://mytraining-ufshands.sumtotal.host/core/pillarRedirect?relyingParty=LM&url=app%2Fmanagement%2FLMS_ActDetails.aspx%3FAcivityId%3D23442%26UserMode%3D0

https://mytraining-ufshands.sumtotal.host/core/pillarRedirect?relyingParty=LM&url=app%2Fmanagement%2FLMS_ActDetails.aspx%3FAcivityId%3D23443%26UserMode%3D0

R for Beginners

**Wednesday, March 20, 1-2:30pm, Communicore Building, Room C1-121 (BITS)**

This workshop aims to introduce those who have not used R but are interested in its data analysis capabilities. Here we will get started by:

- Installing R and R Studio
- Addressing the features of the R Studio environment
- Installing free packages in R used to facilitate data analysis and plotting (i.e. ggplot2)
- Loading sample data onto R Studio and performing basic manipulation of the dataset
- Learning the basics of plotting in R
- Learning to perform basic statistical tests in R (if time permits)

Laptop recommended.

https://mytraining-ufshands.sumtotal.host/core/pillarRedirect?relyingParty=LM&url=app%2Fmanagement%2FLMS_ActDetails.aspx%3FAcivityId%3D40932%26UserMode%3D0

**Did You Know?**

**UF Health Shands earns national recognition for trauma care**

UF Health Shands has received national recognition from the American College of Surgeons, or ACS, for its commitment to the standards of an Adult Level I Trauma Center.

UF Health Shands, which received the verification from the ACS in December, was originally designated by the state as a Level I Trauma Center in July 2005. ACS verification is a voluntary measure for certified Level I Trauma Centers aiming to meet additional levels of excellence in trauma care for patients. [Click here to read more](#)

---

**UF Health Highlights**
More options for nursing mothers at UF Health

Nursing mothers now have two new places to conveniently and privately pump breast milk or breastfeed in our health science center complex. In early November, UF installed two additional modular "lactation pods," made by Mamava™: one in the Communicore Building (near the second-floor elevators) and one in the Health Professions, Nursing & Pharmacy, or HPNP, Building (on the second floor). The latter is also accessible for people with disabilities.

This follows the success of our first Mamava™ lactation pod, introduced last fall in the public hallway near the first-floor outpatient pharmacy, between the UF Health Shands Hospital Atrium and the UF College of Dentistry/west entrance.
"Mothers who are on the go - such as our faculty, staff, residents and students - have even more resources where they can privately pump breast milk or feed an infant," said Dennis Hines, UF Health Medical and Health Administration associate director. "They are also available for visitors to these buildings. We're pleased to offer nursing mothers discreet and welcoming choices to support them where they work and go to school."

UF Business Affairs purchased the mobile units from Mamava for about $15,000 each. The manufacturer designs the pods "to reach mamas where they travel, receive health care, work, shop and play." The pods are now popular in high-traffic areas such as airports, shopping centers and hospitals.

Our pods require the user to use the free Mamava mobile app, which shows where pods are located and is used to unlock the pod door when it's unoccupied. Each well-lit unit is spacious and comfortable, with two molded plastic benches, a shelf, an electrical outlet and a USB port.

Hines added, "There was a great response to our first pod, and use of the app helped us track usage and make the case to purchase more units. These are great options to have in our busy academic health center that complement existing lactation resources."

**Did you know?**

UF Health has the community's only official "Baby-Friendly" hospital: UF Health Shands Hospital is designated by Baby-Friendly USA.

**Lactation locations:**

UF Health is committed to supporting, protecting and promoting breastfeeding. Our lactation resources available to faculty, staff, residents, outpatients, visitors and students at our Archer Road facilities now include:

- UF Health Shands Hospital, First Floor (near Outpatient Pharmacy and Outpatient Lab)
- UF Health Shands Hospital, Seventh Floor, Room 7502 (five pumping stations)
- UF Health Shands Cancer Hospital, Sixth Floor, Room 6012 (two pumping stations)
- UF Health Heart & Vascular and UF Health Neuromedicine hospitals, Fourth Floor, Rooms 4537 and 4539 (one individual pumping station in each room)
- Communicore Building, Second Floor (near the elevators)
- PHHP Building, Second Floor (in the lobby area between the College of Public Health and Health Professions and the College of Nursing sections). This Pod is an ADA-accessible unit to accommodate people with disabilities.

*Note: Our inpatients' needs are accommodated by lactation resources on hospital units.*
